* Morph and Steelcut Trio 3 are part of the Sedus Elegance Line. This exclusive product portfolio is distinguished on the one hand by its particularly high quality and on the other by its positioning to reflect current trends.
In order to present current trends, this collection can be adapted at short notice. Due to the exclusivity and topicality of the fabrics, the delivery time for fabrics in the Elegance Line may be extended. Please note that no subsequent delivery obligations can be given for the fabric qualities and colors in the Elegance Line.

Price group 0		
	Leather is a natural product. Natural features such as insect bites, small deformities and colour shading give the material its distinctive character. The leather's authentic character is thus not grounds for complaint.

Page construction / design code

The page construction for Sedus seating furniture

In order to differentiate between the various product families, we always start with an **overview**:
– first you will find a characteristic short description,
– in the centre a model from the product family is shown,
– next to it the products of the family with the respective starting prices.

The price list page with all options and prices :
– The prices given in the list for complete models or additional features are recommended individual retail prices in Euro without VAT. The price for additional features applies only in conjunction with an order for a basic model.
– The page construction for seating furniture is the same for all series. On the left side the basic versions are shown; aside that are the prices for the basic model in the various price groups (for detailed information of cover materials and price groups see page “Covering materials“).
– Under that is a two-column table with all the product features.
– The chart from left to right: description of the features; to the right of that ■ = series (without surcharge), □ = optional; then after that the four-figure code for the various features. The code for the material/colour index that follows a hyphen always consists of 3 figures. At ** enter the desired colour from the fabrics and leather collection or colour/stain card. The price is on the far right.
– After the product pages you will find all the features clearly arranged by category.
– What does “the black square” mean? The basic model is always a complete chair; all that is required is the chosen of cover fabric. So **bd-100** is a complete chair with the series features of Similar mechanism, Sedo-Lift mechanism III, leg in black aluminium and height-adjustable plastic armrests. All you have to do now is to enter your choice of cover fabric.

A sample order – you would like to order the following:
– Sedus black dot with a medium high backrest
– Similar mechanism with tension control
– Sedo-lift mechanism III
– black aluminium base
– design colour / black plastic parts
– height-adjustable plastic armrests
– cover 91W
then code **bd-102/91W** is all that needs to be entered. **bd-102** stands for black dot swivel chair with a medium high backrest; **91W** is the cover fabric.

Another example – you would like to order the following design:
– Sedus black dot with a medium high backrest
– Similar mechanism with tension control and forward tilt 4°
– seat height adjustment by means of a gaslift:
– polished aluminium base
– design colour / black plastic parts
– 4D armrests with soft-touch covers
– cover 91W
then enter the code **bd-102/1105/1503/2203-110/3414/91W.**

bd-102 is the black dot swivel chair with a high backrest, **1105** the similar mechanism with tension control and forward tilt 4°, **1503** the gaslift, **2203-110** the polished aluminium base, **3414** the 4D armrests with soft-touch covers, **91W** the cover fabric.
Calculate the end price by adding the various surcharges to, or making the deductions from, the basic price in the corresponding price group.

The page construction for Sedus communication furniture

The page construction for communication furniture is the same as that for office seating furniture. Here too, there are overviews, basic designs and options, arranged in order of groups of features.

An example: The code for the design mastermind conference table
– Sedus mastermind single table boat shape, table top 2600 x 1050/1200 mm **(= mm-3000/1642)**
– table top oak wenge varnish **(= C17)**
– frame – table legs, steel, white aluminium **(= 7901-119)**
is **mm-3000/1642/C17/7901-119**

If you would rather order the following:
– Sedus mastermind single table boat shape with shaped edges, table top 2600 x 1050/1200 mm **(= mm-6000/1642)**
– table top oak wenge varnish **(= C17)**
– frame – table legs, steel, chromed **(= 7901-236)**
– shaped edge with chamfer, black **(= 6045)**
– cable tray **(= KA)**
– position of the table top cut-out centred **(= 6122)**
– table top cut-out for built-in socket module Top Frame 4x, anodised **(= 110)**
then enter the code **mm-6000/1642/C17/7901-236/6045/KA/6122/110.**

If you would like to know more or have any questions, please feel free to email us at Produktcode@sedus.com.

FAQs - Sedus price list

What price group is used if the customer supplies the cover fabric?
If the customer provides the cover fabric, price group 9 is to be used.
If the customer provides leather, price group 2 is to be used.

Where can I find out more about the fabric and leather requirements if they are provided by the customer? In the PartnerNET.

Where do I find information on freight costs? For information on freight costs please have a look at our sales and delivery conditions.

Where can I find the positions for the media box cut-outs? For all table systems you can find suggestions for positioning the built-in socket modules in the table systems. You can select these positions using the code on the corresponding product page. If you wish to choose the position freely, then please provide the dimensions on a hand-drawn sketch.

Can tables also be supplied in special sizes? We can produce items in a wide range of special sizes. Please discuss this matter with your sales contact person.

How can you tell the price group from the fabric/leather number?
The first digit denotes the price group. Cover 91W belongs to price group 9.

se:motion

sedus

se:motion catches the eye with its unique and pared-down structure. The chair moves with the natural motion of the user and offers comfort and simplicity of use.

Sedus se:motion specification

▶ Swivel chair

Sales argumentation

- Office chair with unique pared-down structure. The chair moves with the natural motion of the user and offers comfort and simplicity of use.
- The design encourages a rethinking and questioning of conventions and promotes interaction between staff
- The motion sequence is based on an innovative kinematics concept without mechanical linkage
- Excellent seat ergonomics without complicated adjustment. Support pressure of the backrest automatically adjusts to the user (weight).
- Subsequently reconfigurable and replaceable seat cushion offers future-proof adaptability: (1) Post-purchase adaptability (2) Convenience in the buying process: cushions can be purchased later on (3) Customisation possibilities courtesy of varied and variable colour choices (4) Cost savings on maintenance if chairs get dirty, staff change, etc. (5) Hygienic due to easy cleaning of replaceable cushions

Perfect suitability

- Innovative working models such as teamwork, pairing (shared desks), project workplaces, discussions, conferences, meetings, focussed individual work at the office, shared, touchdown or home workstation

Basic model

- Basic model version without seat or backrest cushion, with armrests, plastic stand with hard castors for soft floors
- Model colour black (RAL 9011), seat squab, armrest pads and height adjuster in basalt grey (RAL 7012)
- Seat and backrest cushion can be individually configured and are replaceable
- Classified as office swivel chair type B to DIN EN 1335-1:2020
- Light overall weight of 9 kg (excluding cushions and armrests)/11,6 kg (including seat & backrest cushion and armrests) enables easy mobility between workstations

Backrest

- Backrest made of PP with semi-transparent perforated structure ensures breathable and pleasant back support
- Perfect lumbar curve integrated in backrest support helps support the spine in the lumbar region. Height-adjustable lumbar support can be optionally connected.

Armrests

- Ergonomically shaped plastic armrests (3110) in the colour of the model, armrest pads always come in basalt grey, clear width 530 mm
- Optionally available 4D multifunctional armrests with height adjustment for tension relief in the shoulders and neck muscles, clear width 450 - 530 mm or without armrests

Fixed armrests made of plastic

Multifunctional armrests

Mechanism

- Large backrest tilt angle of 23° enables maximum mobility
- A forward (5°) and slight sideways rocking action encourages ergonomically beneficial changes of position and dynamic working styles
- Backrest lock possible in furthest forward position: choice of “rigid“ or “mobile“ sitting position

Seat

- Ergonomic 5-zone seat (comprising coccyx support, seat ellipse, up-slope, plateau and knee roll) enables even pressure distribution and long-lasting seat comfort

Seat height-adjustment

- Infinitely variable height adjustment by gas spring to suit virtually any body size

Base

- 5-leg stand made of plastic in black (basic model, RAL 9011) or light grey (RAL 7035), castors with 65 mm diameter, choice of hard or soft, always black

Sedus se:motion specification

Counter design

- Footring with 19 mm wide surface area, height-adjustable from 300 to 500 mm, diameter of 500 mm
- Footring and gas spring in black, footring finish in brushed aluminium
- Aluminium base – the model colour determines the foot colour
- Seat height 675 - 915 mm
- Constantly braked castors for safe mounting with full mobility of the chair, always with soft covering for improved grip even on smooth floors, 65 mm diameter
- Recommended for a user weight of up to 110 kg
- GS label by TÜV Rheinland LGA Products GmbH / DIN EN 1335
- AGR quality seal - Healthy Backs Campaign

se:motion net

The se:motion net is an ergonomic office swivel chair that impresses with its ease of use and excellent seating comfort, as well as its backrest with an air-permeable knitted membrane. In addition to its light appearance due to the membrane-covered backrest, the se:motion net is characterised by its unique, kinematic movement concept.

Sedus se:motion net specification

▶ Swivel chair

Basic model

- Office chair with a knitted membrane cover of the backrest simple and unique structure. The innovative kinematic movement concept without mechanics follows the user's natural motion, providing comfort and simplicity of use.
- Classified as office swivel chair type B to DIN EN 1335-1:2020
- Light overall weight of 11,1 kg

Backrest

- Back covered with a 3D knitted membrane, air- and moisture-permeable, wrinkle free, easy to clean, corresponding resilience of the membrane to retain the shape of the backrest
- Optional height-adjustable, retrofittable lumbar support available

Armrests

- 4D multifunctional armrests (3714) with height adjustment for tension relief in the shoulders and neck muscles, clear width 450 - 530 mm
- Optional fixed armrests made of plastic (3110) in the selected model colour, clear width 530 mm or without armrests

Height-adjustable plastic armrests

Fixed armrests made of plastic

Mechanism

- Innovative kinematic motion concept without mechanical linkage. Ergonomically intuitive seat comfort without complicated adjustments by the user.
- Quick and intuitive adjustment using just two easily reachable control elements (height + lock). Further ergonomic adjustments are made automatically by the office chair.
- Support pressure of the backrest automatically adjusts to the user/body weight.
- Large backrest tilt angle of 23° enables maximum mobility.
- A forward (5°) and slight sideways rocking action encourages ergonomically beneficial changes of posture and dynamic sitting.
- Backrest locking possible

Seat

- Ergonomically shaped seat shell with anatomically shaped seat surface with pelvis support, seat pan and rounded front edge of seat
- Upholstery thickness 52 mm

Seat height-adjustment

- Stepless gas spring height adjustment

Base

- 5-leg stand made of plastic in black (basic model, RAL 9011) or light grey (RAL 7035), castors with 65 mm diameter, choice of hard or soft, always black

Counter design

- Footring with 19 mm wide surface area, height-adjustable from 300 to 500 mm, diameter of 500 mm
- Footring and gas spring in black, footring finish in brushed aluminium
- Aluminium base – the model colour determines the foot colour
- Seat height 675 - 915 mm
- Constantly braked castors for safe mounting with full mobility of the chair, always with soft covering for improved grip even on smooth floors, 65 mm diameter
- Recommended for a user weight of up to 110 kg

Sedus se:air specification

▶ Swivel chair

Basic model	– Seat and backrest covered with a knitted membrane, membrane/model/base colour in black, multifunctional armrests, Kinetic-Swing mechanism, gas spring, 5-star plastic base, hard castors in black – Other model colours: clear white (RAL 9016), ruby red (RAL 030 30 30), sage green (RAL 140 60 10), midnight blue (NCS S 7020-R90B)
Backrest	– High, large-surface backrest, suitable for any body size – Back covered with a knitted membrane, wrinkle free, breathable, air- and moisture-permeable – Optionally lumbar height adjustment, colour is defined by the model colour
Armrests	– 4D multifunctional armrests with height adjustment for tension relief in the shoulders and neck muscles – Rotatable and movable pad in depth and width with „floating“ effect without locking – Armrest support and armrest shaft colour depending on model colour – Armrest pad for model colour black available in black, for all other model colours in basalt grey
Mechanism	– Automatic user weight recognition with smooth force transmission – A forward (5°) and slight sideways rocking action encourages ergonomically beneficial changes of position and dynamic working styles – Quick and intuitive adjustment using just two easily reachable control elements (height + lock). Further ergonomic adjustments are made automatically by the office chair – Support pressure of the backrest automatically adjusts to the user/body weight – Large backrest tilt angle of 18° enables maximum mobility – Backrest lock possible in furthest forward position: choice of „rigid“ or „mobile“ sitting position
Seat	– Ergonomically shaped seat frame covered with a knitted membrane, suitable for any body size – Anatomically shaped seat surface with rounded front edge of seat – Seat inclination 4°
Seat height-adjustment	– Stepless gas spring height adjustment, colour is defined by the base colour
Base	– Star base with 5 legs made of plastic, Ø 65 mm castors – Hard or soft castors at the customer‘s option, colour is defined by the base colour
Counter design	– Footring with 19 mm wide surface area, height-adjustable from 300 to 500 mm, diameter of 500 mm – Footring and gas spring in black, footring finish in brushed aluminium – Aluminium base in black or clear white – Seat height 675 - 915 mm – Constantly braked castors for safe mounting with full mobility of the chair, always with soft covering for improved grip even on smooth floors, 65 mm diameter – Recommended for a user weight of up to 110 kg Footring
User weight	– Recommended for user weights up to 130 kg

Sedus netwin specification

▶ Swivel chair

Basic model

- Backrest with double membrane, height-adjustable lumbar support, height-adjustable plastic armrests, Similar mechanism with quick-action tension control, gaslift with mechanical depth-springing, plastic base black, model colour black, hard castors for soft flooring

Backrest

- Black plastic frame made of fibreglass-reinforced polyamide, covered with woven-knit membrane, air and moisture permeable, which guarantees an always perfect reshaping of the double net
- Lumbar adjustment mechanism (height adjustment 70 mm) integrated in the backrest frame and double membrane; automatic depth adaptation due to weight-dependent sinking of the body into the double membrane

Armrests

- Height-adjustable plastic armrests (3611) in black, height adjustment 100 mm (200 - 300 mm), clear width 470 - 500 mm
- Optionally available 4D adjustable armrests in black with Softtouch pads, aluminium support in black (3414) or polished (3484), height adjustment: 100 mm (200 - 300 mm), inside width 460 – 510 mm with parallel armrests, inside width 360 – 510 mm by swivelling the pads (distance between armrest front edges)

Height-adjustable plastic armrests

4D armrests with soft-touch covers

Mechanism

- Similar mechanism with quick-action tension control: balanced force curve due to coordinated spring concept
- Seat and backrest move completely synchronised with the body
- Adaptation to different user weights enables sensitive latching of the rapid adjustment mechanism (leaning pressure 450 - 1500N [10N = 1 kg])
- Backrest inclination to approx. 28°, can be locked in three positions
- Synchronicity relationship between seat and backrest 1:3.4
- Permanent back support even when the backrest is inclined backwards at a wide angle, due to uniform force distribution of the mechanical springs
- Optional seat-inclination adjustment mechanism (- 4°) for even less pressure on the upper thighs

Seat

- Anatomically shaped seating surface with pelvis support, seat hollow and rounded front edge of seat
- Shaped foam (polyurethane foam)
- Upholstery thickness 50 mm
- Optional sliding seat with seat depth 400 - 460 mm

Seat height-adjustment

- Gaslift with mechanical depth-springing: reinforced cushioning of the body's weight even in the lowest seat position
- Optional gaslift for infinitely variable height adjustment
- Optional gaslift for counter design with footring

Base

- Basic base made of plastic (polyamide, glass-fibre reinforced), black, castors with 50 mm diameter
- Optional aluminium base, powder-coated, black, white aluminium or polished aluminium, castors with 65 mm diameter
- Hard or soft castors

Counter design

- Footring with 19 mm wide surface area, height-adjustable from 300 to 500 mm, diameter of 500 mm
- Footring and gaslift in black, footring finish in brushed aluminium
- Seat height 675 - 920 mm
- Constantly braked castors for safe mounting with full mobility of the chair, always with soft covering for improved grip even on smooth floors, 65 mm diameter
- Recommended for user weights up to 110 kg
- GS label by TÜV Rheinland LGA Products GmbH / DIN EN 1335
- AGR quality seal - Healthy Backs Campaign

Footring

User weight

- Recommended for user weights up to 110 kg

Sedus netwin specification

▶ Visitor chairs

Basic model
- Backrest with double membrane, steel armrests with plastic covers, steel frame stackable black, model colour black, 4-leg version with stainless steel glides, cantilever chair without glides

Backrest
- Black plastic frame made of fibreglass-reinforced polyamide, covered with woven-knit membrane, air and moisture permeable, which guarantees an always perfect reshaping of the double net

Armrests
- Steel armrests with plastic covers (polypropylene), black
- Length of armrests: 4-leg chair 205 mm, cantilever chair 240 mm

Seat
- Seat upholstery made of polyether foam
- Upholstery thickness 50 mm, width 470 mm, depth 460 mm

Frame
- Steel powder coated black, white aluminium or high quality chrome
- 4-leg version: steel frame, diameter 22 mm, tube wall thickness 2 mm, stackable to 5 units, stainless steel glides, optionally with plastic or felt glides or castors
- Cantilever: steel frame, diameter 25 mm, tube wall thickness 2 mm, stackable to 5 units or not stackable, optionally with plastic or felt glides

User weight
- Recommended for user weights up to 110 kg (up to 150 kg for occasional use)

Standards / Certificates
- GS label by TÜV Rheinland LGA Products GmbH / DIN EN 16139 L1
- Tested for harmful substances by TÜV Rheinland LGA Products GmbH
- QUALITY OFFICE quality seal
- GREENGUARD certified

Sedus quarterback specification

▶ Swivel chair

Basic model

- Backrest with membrane cover, height-adjustable lumbar support, height-adjustable plastic armrests, Similar mechanism with quick-action tension control, gaslift with mechanical depth-springing, plastic base black, model colour black, hard castors for soft flooring

Backrest

- Membrane cover (self-supporting knitted fabric of 100% Polyester)
- Optional full upholstery with textile supporting structure, completely covered with cover fabrics from the Sedus collection
- Optional comfort membrane made of self-supporting knitted fabric like the mesh backrest, but back of membrane quilted with 10 mm cut foam and neutral grey fabric (Atlantic 9AT_A60025)
- Integrated lumbar adjustment, height adjustment 80 mm, option with or without lumbar adjustment
- Optional lumbar support depth adjustment (20 mm); for backrest with membrane cover or with comfort membrane
- Optional neck support with height (80 mm) and tilt adjustment (25°), for models in fabric in black imitation leather, for models in leather, the leather colour matches the upholstery choice
- Optional coat hanger in conjunction with neck support

Backrest with membrane cover

Backrest with comfort membrane

Backrest upholstered

Armrests

- Height-adjustable plastic armrests (3611) in black or clear white, height adjustment 100 mm, clear width 490 mm
- Optionally available 4D adjustable armrests in black with Softtouch pads, aluminium support in black (3414) or polished (3484), height adjustment: 100 mm, inside width 460 – 510 mm

Height-adjustable armrests with plastic covers

4D armrests with soft-touch covers

Mechanism

- Similar mechanism with quick-action tension control: balanced force curve due to coordinated spring concept
- Seat and backrest move completely synchronised with the body
- Synchronicity relationship between seat and backrest 1:3
- Backrest inclination to approx. 23°, can be locked in two positions
- Optional seat-inclination adjustment mechanism (- 4°) for even less pressure on the upper thighs
- Adaptation to different user weights enables sensitive latching of the rapid adjustment mechanism (leaning pressure 450 - 1500N [10N = 1 kg])
- Permanent back support even when the backrest is inclined backwards at a wide angle, due to uniform force distribution of the mechanical springs

Seat

- Anatomically shaped seating surface with pelvis support, seat hollow and rounded front edge of seat
- Shaped foam (polyurethane foam)
- Upholstery thickness 50 mm
- Optional sliding seat with seat depth 435 - 495 mm (mesh), 425 - 485 mm (slim + upholstery)

Seat height-adjustment

- Gaslift with mechanical depth-springing: reinforced cushioning of the body's weight even in the lowest seat position
- Optional gaslift for infinitely variable height adjustment
- Optional gaslift for counter design with footring

Base

- Basic base in polyamide, glass-fibre reinforced, black or clear white
- Optional aluminium base, powder-coated, black, white aluminium, clear white or polished aluminium
- Hard or soft castors with 65 mm diameter

Sedus quarterback specification

Counter design

- Footring with 19 mm wide surface area, height-adjustable from 300 to 500 mm, diameter of 500 mm
- Footring and gas spring in black, footring finish in brushed aluminium
- Seat height 670 - 915 mm
- Constantly braked castors for safe mounting with full mobility of the chair, always with soft covering for improved grip even on smooth floors, 65 mm diameter
- Recommended for user weights up to 110 kg
- GS label by TÜV Rheinland LGA Products GmbH / DIN EN 1335
- AGR quality seal - Healthy Backs Campaign

Footring

User weight

- Recommended for user weights up to 120 kg

Standards / Certificates

- GS label by TÜV Rheinland LGA Products GmbH / DIN EN 1335 / DIN 4573
- Ergonomics Certificate of TÜV Rheinland LGA Products GmbH
- Tested for harmful substances of TÜV Rheinland LGA Products GmbH
- QUALITY OFFICE quality seal
- GREENGUARD certified
- AGR quality seal - Healthy Backs Campaign
- Awarded BLAUER ENGEL
- All available certificates can be found at: https://www.sedus.com/en/products/chairs/quarterback

Design awards

- Red Dot Award 2014, Winner
- German Design Award 2016, Nominee

GERMAN DESIGN AWARD NOMINEE 2016

reddot award 2014 winner

Warranty

- 5 years (see guarantee terms)

▶ Visitor chairs

Basic model

- Backrest with membrane cover, standard armrests, steel frame stackable black, model colour black, 4-leg version with stainless steel glides, cantilever chair without glides

Backrest

- Membrane cover (self-supporting knitted fabric of 100% Polyester)
- Optional comfort membrane made of self-supporting knitted fabric like the mesh backrest, but back of membrane quilted with 10 mm cut foam and neutral grey fabric (Atlantic 9AT_A60025)
- Optional full upholstery with textile supporting structure, completely covered with cover fabrics from the Sedus collection

Armrests

- Armrests in polypropylene, black
- Length of armrests: 4-leg chair 230 mm, cantilever chair 200 mm

Seat

- Seat upholstery made of polyether foam
- Upholstery thickness 50 mm, width 500 mm, depth 460 mm

Frame

- Steel frame, diameter 25 mm, tube wall thickness 2 mm
- 4-leg version stackable to 3 units, with stainless steel glides, optionally with plastic or felt glides or castors
- Cantilever stackable to 5 units or not stackable, optionally with plastic or felt glides

Sedus quarterback specification

User weight	– Recommended for user weights up to 110 kg (up to 150 kg for occasional use)

Sedus se:flair specification

▶ Swivel chair

Basic model	– Seat with upholstered membrane, backrest with membrane cover, model colour black, standard seat, Kinetic-Swing mechanism, gaslift, 5-star plastic base, hard castors
Backrest	– Backrest always with membrane back support (knitted membrane) – Lumbar support always integrated due to the underlay membrane
Armrests	– Armrests always integrated in the rest frame
Mechanism	– Innovative kinematic motion concept without mechanical linkage – Ergonomically intuitive seat comfort without complicated adjustments by the user – A forward (8°) rocking action encourages ergonomically beneficial changes of position and dynamic working styles – Automatic user weight recognition with smooth force transmission: Support pressure of the backrest automatically adjusts to the user/body weight – Large backrest tilt angle of 23° enables maximum mobility – Intuitive quick adjustment: Backrest lock possible for „rigid“ or “mobile” sitting posture Control element for locking mechanism always in basalt grey – Colour depending on the model colour
Seat	– Seat upholstered with membrane (knitted membrane) cover or seat upholstered with cover fabric – Different covers for the seat and back are possible – Upholstery thickness 50 mm
Seat height-adjustment	– Plastic base: gas spring height adjustment, gas spring colour depending on the model colour, control for height adjustment always in basalt grey – Aluminium base: gas spring height adjustment, gas spring colour depending on the model colour, control for height adjustment always in basalt grey – Wooden base: central seat spring, not height-adjustable
Base	– Plastic 5-star base on castors, rotates 360°, lockable, height-adjustable, hard castors or soft castors (Ø 65 mm), colour of base and castors is defined by the model colour – Aluminium 4-star base on glides, rotates 360°, lockable, height-adjustable, colour is defined by the model colour, plastic or felt glides – Wooden 4-star base on glides, rotates 360°, lockable, colour of the aluminium knot depending on the model colour, plastic or felt glides
User weight	– Recommended for user weights up to 110 kg (wooden base) or up to 130 kg (plastic base/aluminium base)
Standards / Certificates	– GS label by TÜV Rheinland LGA Products GmbH / DIN EN 1335 / DIN 4573 (plastic base) – GS label by TÜV Rheinland LGA Products GmbH / DIN EN 16139 L1 (aluminium/wooden base) – Tested for harmful substances by TÜV Rheinland LGA Products GmbH – GREENGUARD Certificate – All available certificates can be found at: https://www.sedus.com/en/products/chairs/seflair
Warranty	– 5 years (see guarantee terms)

Sedus se:flex specification

▶ Swivel chair, backrest with membrane cover

Basic model	– Backrest with flexible 3D knitted membrane, height-adjustable lumbar support, multifunctional armrests, similar mechanism with automatic weight adjustment, gas spring with mechanical depth springing, sliding seat, automatic seat forward tilt of up to 5°, plastic star base, hard castors for soft floors
Backrest	– 3D knitted membrane in five different colours – Plastic frame made of glass-fibre reinforced polyamide, either in black or light grey – Lumbar support (70 mm height adjustable), optional depth-adjustable comfort lumbar feature (up to 20 mm lumbar depth adjustment, adaptive system which does not require manual adjustment) – Backrest with flex element ensures both freedom of movement and extra support – Optional fully upholstered neck support with height (90 mm) and tilt adjustment (25°) for fabric models in black imitation leather; for versions in leather, neck support in the selected leather – Optional coat hanger
Armrests	– Multifunctional armrests with pads made of PUR which are integrated into the model, pivotable (40° inwards, 20° outwards), available in either black or light grey – Height adjustment (100 mm), depth adjustment (40 mm) and a choice of either an inside width of 480 mm when the armrest pads parallel to one another or a distance of between 340 and 600 mm between the armrest front edges when the armrest pads have been swivelled – Optionally 4D plastic armrests with 360° rotatable soft-touch covers made of PU material, always in black, height-adjustable 200 - 310 mm
Mechanism	– Similar mechanism with automatic user weight recognition with smooth force transmission – Seat and backrest move completely synchronously with the body – Synchronicity relationship between seat and backrest 1:3.5 – Automatic adaptation to different users‘ body weights (leaning weights of 500 N to 1500 N, 10 N = 1 kg) – Backrest tilt mechanism: 26°, locking in foremost position possible or additional restriction of backrest movement at 8, 16 and 26 – Automatic forward tilt (resulting from a shift in the user‘s weight) of up to 5°
Seat	– Flexibly mounted seat enables lateral seat movements – Anatomically shaped seat surface with seat pan and rounded front seat edges – Moulded foam (polyurethane foam) – Width 490 mm, depth 430 - 500 mm – Optional comfort sliding seat with seat depth 425 - 495 mm
Seat height-adjustment	– Gaslift with mechanical depth-springing: reinforced cushioning of the body‘s weight even in the lowest seat position, height adjustment 400 - 520 mm – Optional gaslift for infinitely variable height adjustment of 400 to 530 mm – Optional Sedo-lift mechanism III: complete cushioning of body weight, even in lowest seating position, no compression of the spine when sitting downprovided by pneumatic interlock, completely free of wear and tear, mechanical failure or gas lift replacement, height adjustment between 420 - 540 mm – Optional gaslift for counter design with footring
Base	– Plastic star base (glass-fibre reinforced polyamide), black or light grey – Optional aluminium base polished – Hard or soft castors with 65 mm diameter

Sedus se:flex specification

Counter design

- Fixed seat depth of 425 mm
- Footring with 19 mm wide surface area, height-adjustable from 300 to 500 mm, diameter of 500 mm
- Footring and gas spring in black, footring finish in brushed aluminium
- Aluminium base, powder-coated, black, light grey or polished aluminium
- Seat height 630 - 880 mm
- Constantly braked castors for safe mounting with full mobility of the chair, always with soft covering for improved grip even on smooth floors, 65 mm diameter
- Recommended for a user weight of up to 110 kg
- GS label by TÜV Rheinland LGA Products GmbH / DIN EN 1335
- AGR quality seal - Healthy Backs Campaign

Footring

User weight

- Recommended for user weights up to approx. 130 kg (in conjunction with aluminium base up to approx. 150 kg)

- 30 years for Sedo-lift mechanism (see guarantee terms)

► Swivel chair with upholstered backrest

Basic model

- Backrest with slim upholstery, height-adjustable lumbar support, multifunctional armrests, similar mechanism with automatic weight adjustment, gas spring with mechanical depth springing, sliding seat, automatic seat forward tilt of up to 5°, plastic star base, hard castors for soft floors

Backrest

- Slim upholstery backrest with fabrics from the Sedus upholstery fabric collection, back always in the colour anthracite
- Plastic frame made of glass-fibre reinforced polyamide, either in black or light grey
- Lumbar support (70 mm height adjustable), optional depth-adjustable comfort lumbar feature (up to 20 mm lumbar depth adjustment, adaptive system which does not require manual adjustment)
- Backrest with flex element ensures both freedom of movement and extra support
- Optional fully upholstered neck support with height (90 mm) and tilt adjustment (25°) for fabric models in black imitation leather; for versions in leather, neck support in the selected leather
- Optional coat hanger

Sedus se:flex specification

Armrests	– Multifunctional armrests with pads made of PUR which are integrated into the model, pivotable (40° inwards, 20° outwards), available in either black or light grey – Height adjustment (100 mm), depth adjustment (40 mm) and a choice of either an inside width of 480 mm when the armrest pads parallel to one another or a distance of between 340 and 600 mm between the armrest front edges when the armrest pads have been swivelled – Optionally 4D plastic armrests with 360° rotatable soft-touch covers made of PU material, always in black, height-adjustable 200 - 310 mm
Mechanism	– Similar mechanism with automatic user weight recognition with smooth force transmission – Seat and backrest move completely synchronously with the body – Synchronicity relationship between seat and backrest 1:3 – Automatic adaptation to different users‘ body weights (leaning weights of 500 N to 1500 N, 10 N = 1 kg] – Backrest tilt mechanism: 26°, locking in foremost position possible or additional restriction of backrest movement at 8, 16 and 26 – Automatic forward tilt (resulting from a shift in the user‘s weight) of up to 5°
Seat	– Flexibly mounted seat enables lateral seat movements – Anatomically shaped seat surface with seat pan and rounded front seat edges – Moulded foam (polyurethane foam) – Width 490 mm, depth 430 - 500 mm – Optional comfort sliding seat with seat depth 425 - 495 mm
Seat height-adjustment	– Gaslift with mechanical depth-springing: reinforced cushioning of the body‘s weight even in the lowest seat position, height adjustment 400 - 520 mm – Optional gaslift for infinitely variable height adjustment of 400 to 530 mm – Optional Sedo-lift mechanism III: complete cushioning of body weight, even in lowest seating position, no compression of the spine when sitting downprovided by pneumatic interlock, completely free of wear and tear, mechanical failure or gas lift replacement, height adjustment between 420 - 540 mm – Optional gaslift for counter design with footring
Base	– Plastic star base (glass-fibre reinforced polyamide), black or light grey – Optional aluminium base polished – Hard or soft castors with 65 mm diameter
Counter design	– Fixed seat depth of 425 mm – Footring with 19 mm wide surface area, height-adjustable from 300 to 500 mm, diameter of 500 mm – Footring and gas spring in black, footring finish in brushed aluminium – Aluminium base, powder-coated, black, light grey or polished aluminium – Seat height 630 - 880 mm – Constantly braked castors for safe mounting with full mobility of the chair, always with soft covering for improved grip even on smooth floors, 65 mm diameter – Recommended for a user weight of up to 110 kg – GS label by TÜV Rheinland LGA Products GmbH / DIN EN 1335 – AGR quality seal - Healthy Backs Campaign Footring
User weight	– Recommended for user weights up to approx. 130 kg (in conjunction with aluminium base up to approx. 150 kg)

Sedus se:flex specification

Standards / Certificates

- GS label by TÜV Rheinland LGA Products GmbH / DIN EN 1335 / DIN 4573
- Ergonomics Certificate of TÜV Rheinland LGA Products GmbH
- Tested for harmful substances of TÜV Rheinland LGA Products GmbH
- QUALITY OFFICE quality seal
- GREENGUARD certified
- AGR quality seal - Healthy Backs Campaign
- Awarded BLAUER ENGEL
- All available certificates can be found at: https://www.sedus.com/en/products/chairs/seflex

Design awards

- ICONIC AWARDS 2019: Interior Innovation – Selection
- German Design Award 2020, Winner

Warranty

- 5 years (see guarantee terms)
- 30 years for Sedo-lift mechanism (see guarantee terms)

► Visitor chairs

Backrest

- Plastic frame integrated into the frame structure
- Backrest with two upholstery versions:
- 1. „Membrane“: mesh cover made from self-supporting knitted fabric
- 2. „Slim upholstery“: backrest upholstery covered with fabrics from the Sedus collection analogous to the se:flex swivel chair and grey supporting material on the reverse side

Shell

- Ergonomically shaped seat shell

Armrests

- Without armrests
- Optionally standard armrests, armrest covers 170 x 35 mm, clear width 510 mm

Seat

- Anatomically shaped seat surface with pelvis support, seat pan and rounded front edge of seat
- Upholstery thickness 50 mm
- Width 450 mm, depth 435 mm

Frame

- Four-leg chair: steel tube (round tube), Ø 22 mm, wall thickness 2.0 mm, stackable max. 5 chairs with stacking trolley , stainless steel glides, plastic or felt glides as an option
- Four-leg chair optionally with castors (Ø 37 mm), stackable up to 5 units on flat surface for storage
- Cantilever chair: steel tube (round tube), Ø 22 mm, wall thickness 2.5 mm, not stackable or stackable max. 5 chairs, plastic or felt glides as an option

User weight

- Recommended for user weights up to approx. 130 kg

Sedus se:flex specification

Standards / Certificates

Sedus se:kit specification

▶ Swivel chair, backrest with membrane cover

Basic model
- Back covered with a 3D knitted membrane, 2D armrests with plastic covers, standard seat, Similar mechanism with automatic weight adjustment, gaslift, 5-star plastic base, model colour black, hard castors for soft flooring, with protection for castors

Backrest
- Large, ergonomically shaped backrest, suitable for any body size
- Back covered with a 3D knitted membrane, air- and moisture-permeable, wrinkle free
- Plastic frame in the selected model colour
- Optional height-adjustable and swivel neck support in imitation leather, adjustment range 90 mm, tilt to front 25°
- Coat hangers available individually or as a set with neck support

Armrests
- Ergonomically shaped plastic armrests (3211) for relieving stress in the shoulders and neck muscles, armrest support and armrest shaft colour depending on the model colour, armrest pad colour always in black
- Optional height-adjustable plastic armrests (3611)
- Optional 2D design armrests with PUR covers (3294), height-adjustable, movable pad
- Optional 3D armrests with PUR covers (3914), height- and width-adjustable, movable pad, armrest support width adjustment (no tools required)
- Optionally available 4D adjustable armrests with Softtouch pads (3414), height- and width-adjustable, movable pad, armrest support width adjustment (no tools required)
- Optional without armrests,not possible with the following configurations: mechanism 1112/1116 and sliding seat 4509/4512 and base 2415; mechanism 1114/1115 and sliding seat 4509/4512 and base 2215/2415; mechanism 1113 and sliding seat 4502/4513 and base 2215/2415

Mechanism
- Similar mechanism with automatic weight adjustment recognition with smooth force transmission in black
- Optional Kinetic-Swing mechanism: Innovative kinematic motion concept without mechanical linkage for non-territorial areas of application. Ergonomically intuitive seat comfort without complicated adjustments by the user.
- Optional Similar mechanism with individual weight adjustment with an opening angle of 18° in black
- Optional Similar mechanism with individual weight adjustment and forward tilt up to 4°

Seat
- Ergonomically and anatomically shaped 5-zone seat ensures even pressure distribution and long-lasting sitting comfort for any body size
- Padded seat with PUR upholstery foam
- Standard seat: foam thickness approx. 55 mm, upholstery thickness 55 mm
- Comfort seat: foam thickness approx. 60 mm, upholstery thickness 60 mm
- Optional sliding seat with seat depth 410 - 480 mm or 425 - 485 mm (Kinetic-Swing mechanism)

Seat height-adjustment
- Continuous gas spring height adjustment
- Optional Sedo-lift mechanism III: complete cushioning of body weight, even in lowest seating position, no compression of the spine when sitting downprovided by pneumatic interlock, completely free of wear and tear, mechanical failure or gas lift replacement
- Optional gaslift for counter design with footring

Base
- 5-star plastic base in black or light grey
- Optional 5-star aluminium base in black, polished or light grey
- Hard or soft castors with 65 mm diameter

Counter design
- Footring with 19 mm wide surface area, height-adjustable from 300 to 500 mm, diameter of 500 mm
- Footring and gas spring in black, footring finish in brushed aluminium
- Seat height 630 - 880 mm or 645 - 895 mm (Kinetic-Swing mechanism)
- Constantly braked castors for safe mounting with full mobility of the chair, always with soft covering for improved grip even on smooth floors, 65 mm diameter
- Recommended for user weights up to 110 kg

Footring

User weight
- Recommended for user weights up to 150 kg, for models with Kinetic-Swing mechanism up to 130 kg

- GS label by TÜV Rheinland LGA Products GmbH / DIN EN 1335 / DIN 4573
- Ergonomics Certificate by TÜV Rheinland LGA Products GmbH
- GREENGUARD Certificate
- AGR quality seal - Healthy Backs Campaign
- All available certificates can be found at: https://www.sedus.com/en/products/chairs/sekit

Design awards

- iF DESIGN AWARD 2023, Discipline Product
- Red Dot Design Award 2023, Winner

reddot winner 2023

Warranty

- 5 years (see guarantee terms)
- 30 years for Sedo-lift mechanism (see guarantee terms)

▶ Swivel chair with upholstered backrest

Basic model

- Upholstered backrest, 2D armrests with plastic covers, standard seat, Similar mechanism with automatic weight adjustment, gaslift, 5-star plastic base, model colour black, hard castors for soft flooring, with protection for castors

Backrest

- Large, ergonomically shaped backrest, suitable for any body size
- Upholstered backrest with fabrics and leather from the Sedus collection, back cover: Harlequin, for model colour black in black and for model colour light grey in light grey, upholstery thickness 45 mm
- Plastic frame in the selected model colour
- Height adjustment of backrest 70 mm (sn-102), lumbar height adjustment with additional depth adjustment available (sn-101/sn-103)
- Optional height-adjustable and swivel neck support in black imitation leather, adjustment range 90 mm, tilt to front 25°
- Coat hangers available individually or as a set with neck support

Armrests

- Ergonomically shaped plastic armrests (3211) for relieving stress in the shoulders and neck muscles, armrest support and armrest shaft colour depending on the model colour, armrest pad colour always in black
- Optional height-adjustable plastic armrests (3611)
- Optional 2D design armrests with PUR covers (3294), height-adjustable, movable pad
- Optional 3D armrests with PUR covers (3914), height- and width-adjustable, movable pad, armrest support width adjustment (no tools required)
- Optionally available 4D adjustable armrests with Softtouch pads (3414), height- and width-adjustable, movable pad, armrest support width adjustment (no tools required)
- Optional without armrests,not possible with the following configurations: mechanism 1112/1116 and sliding seat 4509/4512 and base 2415; mechanism 1114/1115 and sliding seat 4509/4512 and base 2215/2415; mechanism 1113 and sliding seat 4502/4513 and base 2215/2415

Mechanism

- Similar mechanism with automatic weight adjustment recognition with smooth force transmission in black
- Optional Kinetic-Swing mechanism: Innovative kinematic motion concept without mechanical linkage for non-territorial areas of application. Ergonomically intuitive seat comfort without complicated adjustments by the user.
- Optional Similar mechanism with individual weight adjustment with an opening angle of 18° in black
- Optional Similar mechanism with individual weight adjustment and forward tilt up to 4°

Seat

- Ergonomically and anatomically shaped 5-zone seat ensures even pressure distribution and long-lasting sitting comfort for any body size
- Padded seat with PUR upholstery foam
- Standard seat: foam thickness approx. 55 mm, upholstery thickness 55 mm
- Comfort seat: foam thickness approx. 60 mm, upholstery thickness 60 mm
- Optional sliding seat with seat depth 410 - 480 mm or 425 - 485 mm (Kinetic-Swing mechanism)

Sedus se:kit specification

Seat height-adjustment
- Continuous gas spring height adjustment
- Optional Sedo-lift mechanism III: complete cushioning of body weight, even in lowest seating position, no compression of the spine when sitting downprovided by pneumatic interlock, completely free of wear and tear, mechanical failure or gas lift replacement
- Optional gaslift for counter design with footring

Base
- 5-star plastic base in black or light grey
- Optional 5-star aluminium base in black, polished or light grey
- Hard or soft castors with 65 mm diameter

Counter design
- Footring with 19 mm wide surface area, height-adjustable from 300 to 500 mm, diameter of 500 mm
- Footring and gas spring in black, footring finish in brushed aluminium
- Seat height 630 - 880 mm or 645 - 895 mm (Kinetic-Swing mechanism)
- Constantly braked castors for safe mounting with full mobility of the chair, always with soft covering for improved grip even on smooth floors, 65 mm diameter
- Recommended for user weights up to 110 kg

Footring

User weight
- Recommended for user weights up to 150 kg, for models with Kinetic-Swing mechanism up to 130 kg

Standards / Certificates
- GS label by TÜV Rheinland LGA Products GmbH / DIN EN 1335 / DIN 4573
- Ergonomics Certificate by TÜV Rheinland LGA Products GmbH
- GREENGUARD Certificate
- AGR quality seal - Healthy Backs Campaign
- All available certificates can be found at: https://www.sedus.com/en/products/chairs/sekit

Design awards
- iF DESIGN AWARD 2023, Discipline Product
- Red Dot Design Award 2023, Winner

Warranty
- 5 years (see guarantee terms)
- 30 years for Sedo-lift mechanism (see guarantee terms)

▶ Swivel partner chair with membrane cover

Basic model
- Back covered with a 3D knitted membrane, 2D design armrests, standard seat, Kinetic-Swing mechanism, gaslift, 4-star aluminium base, model colour black, felt glides

Backrest
- Large, ergonomically shaped backrest, suitable for any body size
- Back covered with a 3D knitted membrane, air- and moisture-permeable, wrinkle free
- Plastic frame in the selected model colour

Armrests
- 2D design armrests with PUR covers, height-adjustable, movable pad

Sedus se:kit specification

Mechanism	– A forward (5°) and slight sideways rocking action encourages ergonomically beneficial changes of position and dynamic working styles – Automatic user weight recognition with smooth force transmission – Intuitive quick adjustment – Support pressure of the backrest automatically adjusts to the user/body weight – Opening angle of the mechanism: 18°
Seat	– Ergonomically and anatomically shaped 5-zone seat ensures even pressure distribution and long-lasting sitting comfort for any body size – Padded seat with PUR upholstery foam – Standard seat: foam thickness approx. 55 mm, upholstery thickness 55 mm – Comfort seat: foam thickness approx. 60 mm, upholstery thickness 60 mm
Seat height-adjustment	– Continuous gas spring height adjustment – Optional Sedo-lift mechanism III: complete cushioning of body weight, even in lowest seating position, no compression of the spine when sitting downprovided by pneumatic interlock, completely free of wear and tear, mechanical failure or gas lift replacement
Base	– 4-star aluminium base in black, polished or light grey, plastic / felt glides or hard / soft castors with 65 mm diameter – Optional 5-star aluminium base in black, polished or light grey, hard or soft castors with 65 mm diameter – Optional 5-star plastic base, in black or light grey, hard or soft castors with 65 mm diameter
User weight	– Recommended for user weights up to 130 kg
Standards / Certificates	– GS label by TÜV Rheinland LGA Products GmbH/ DIN EN 16139 L1 / DIN 4573 – GREENGUARD Certificate – AGR quality seal - Healthy Backs Campaign – All available certificates can be found at: https://www.sedus.com/en/products/chairs/sekit
Warranty	– 5 years (see guarantee terms) – 30 years for Sedo-lift mechanism (see guarantee terms)

▶ Swivel partner chair with upholstered backrest

Basic model	– Upholstered backrest, 2D design armrests, standard seat, Kinetic-Swing mechanism, gaslift, 4-star aluminium base, model colour black, felt glides
Backrest	– Large, ergonomically shaped backrest, suitable for any body size – Upholstered backrest with fabrics and leather from the Sedus collection, back cover: Harlequin, for model colour black in black and for model colour light grey in light grey, upholstery thickness 45 mm – Plastic frame in the selected model colour
Armrests	– 2D design armrests with PUR covers, height-adjustable, movable pad
Mechanism	– A forward (5°) and slight sideways rocking action encourages ergonomically beneficial changes of position and dynamic working styles – Automatic user weight recognition with smooth force transmission – Intuitive quick adjustment – Support pressure of the backrest automatically adjusts to the user/body weight – Opening angle of the mechanism: 18°
Seat	– Ergonomically and anatomically shaped 5-zone seat ensures even pressure distribution and long-lasting sitting comfort for any body size – Padded seat with PUR upholstery foam – Standard seat: foam thickness approx. 55 mm, upholstery thickness 55 mm – Comfort seat: foam thickness approx. 60 mm, upholstery thickness 60 mm

Sedus se:kit specification

Seat height-adjustment	– Continuous gas spring height adjustment – Optional Sedo-lift mechanism III: complete cushioning of body weight, even in lowest seating position, no compression of the spine when sitting downprovided by pneumatic interlock, completely free of wear and tear, mechanical failure or gas lift replacement
Base	– 4-star aluminium base in black, polished or light grey, plastic / felt glides or hard / soft castors with 65 mm diameter – Optional 5-star aluminium base in black, polished or light grey, hard or soft castors with 65 mm diameter – Optional 5-star plastic base, in black or light grey, hard or soft castors with 65 mm diameter
User weight	– Recommended for user weights up to 130 kg
Standards / Certificates	– GS label by TÜV Rheinland LGA Products GmbH/ DIN EN 16139 L1 / DIN 4573 – GREENGUARD Certificate – AGR quality seal - Healthy Backs Campaign – All available certificates can be found at: https://www.sedus.com/en/products/chairs/sekit
Warranty	– 5 years (see guarantee terms) – 30 years for Sedo-lift mechanism (see guarantee terms)

► Visitor chairs

Backrest	– Plastic frame integrated into the frame structure – Backrest with two upholstery versions: – 1. „Membrane“: 3D knitted membrane, air- and moisture-permeable, wrinkle free – 2. „Slim upholstery“: backrest upholstery covered with fabrics from the Sedus collection analogous to the se:kit swivel chair and grey supporting material on the reverse side
Shell	– Ergonomically shaped seat shell
Armrests	– Without armrests – Optionally standard armrests, armrest covers 170 x 35 mm, clear width 510 mm
Seat	– Anatomically shaped seat surface with pelvis support, seat pan and rounded front edge of seat – Upholstery thickness 50 mm – Width 450 mm, depth 435 mm
Frame	– Four-leg chair: steel tube (round tube), Ø 22 mm, wall thickness 2.0 mm, stackable max. 5 chairs with stacking trolley , stainless steel glides, plastic or felt glides as an option – Four-leg chair optionally with castors (Ø 37 mm), stackable up to 5 units on flat surface for storage – Cantilever chair: steel tube (round tube), Ø 22 mm, wall thickness 2.5 mm, not stackable or stackable max. 5 chairs, plastic or felt glides as an option
User weight	– Recommended for user weights up to approx. 130 kg
Standards / Certificates	– GS label by TÜV Rheinland LGA Products GmbH / DIN EN 16139 L1 / DIN 4573 – Tested for harmful substances by TÜV Rheinland LGA Products GmbH – QUALITY OFFICE quality seal – GREENGUARD certified – All available certificates can be found at: https://www.sedus.com/en/products/chairs/sekit-visitor-chair
Warranty	– 5 years (see guarantee terms)

black dot air

Sedus black dot air combines the filigree but non-transparent styling of a mesh with the comfort of a fully upholstered chair. The textured AIR KNIT fabric envelops your back as soon as you sit down and a provides feeling of comfort and cosiness.

Swivel chair from 768,–

Design: Carlo Shayeb (Sedus Design Team)

Sedus black dot air specification

▶ Swivel chair

Basic model

- Backrest with textured knitted fabric, height-adjustable lumbar support, height-adjustable plastic armrests, Similar mechanism with tension control, gaslift, plastic base black, model colour black, hard castors for soft flooring

Backrest

- Plastic frame made of fibreglass-reinforced polyamide. The textured AIR KNIT fabric envelops your back as soon as you sit down and a provides feeling of comfort and cosiness.
- Integrated height-adjustable (80 mm) and optionally depth-adjustable (10 mm) lumbar suppor
- Due to the dorsokinetic joint the backrest has an additional degree of freedom of 15° for backward movements and of 8° for lateral movements of the upper body
- Optional covered neck support with height (80 mm) and tilt adjustment (25°), for models in fabric in black imitation leather, for models in leather, the leather colour matches the upholstery choice
- Optional coat-hanger in conjunction with neck support

Height-adjustable neck support

Armrests

- Height-adjustable plastic armrests (3611) in black, height adjustment 100 mm (200 - 300 mm), clear width 490 - 520 mm
- Optionally available 4D armrests with Softtouch pads, in model colour (3414) or in black with polished aluminium support (3484), height adjustment 100 mm (200 - 300 mm), inside width 460 – 510 mm

Height-adjustable plastic armrests

4D armrests with soft-touch covers

Mechanism

- Similar mechanism with tension control: balanced force curve due to coordinated spring concept
- Seat and backrest move completely synchronised with the body
- Synchronicity relationship between seat and backrest 1:2.7
- Adaptation to different user weights enables sensitive latching of the rapid adjustment mechanism (leaning pressure 450 - 1200N and 550 - 1500N (stronger spring) [10N = 1 kg])
- Backrest inclination to approx. 32°, can be locked in virtually continuously variable manner (11 different settings)
- Permanent back support even when the backrest is inclined backwards at a wide angle, due to uniform force distribution of the mechanical springs
- Optional seat tilt adjustment (+0°; +2°; +4°), less pressure against the thighs without the user sliding out of the seat pan

Seat

- Anatomically shaped seating surface with pelvis support, seat hollow and rounded front edge of seat
- Shaped foam (polyurethane foam)
- Width 470 mm, depth 420 mm; optional sliding seat with seat depth 415 - 485 mm

Seat height-adjustment

- Gaslift for infinitely variable height adjustment 400 - 530 mm
- Optional Sedo-lift mechanism III: complete cushioning of body weight, even in lowest seating position, no compression of the spine when sitting downprovided by pneumatic interlock, completely free of wear and tear, mechanical failure or gas lift replacement, height adjustment between 420 - 530 mm

Base

- Plastic star base (glass-fibre reinforced polyamide), black or light grey, hard or soft castors with 65 mm diameter

User weight

- Recommended for user weights up to 130 kg

Sedus black dot net specification

▶ Swivel chair

Basic model

- Backrest with membrane cover, height-adjustable lumbar support, height-adjustable plastic armrests, Similar mechanism with tension control, Sedo-lift mechanism, aluminium base black, model colour black, hard castors for soft flooring

Backrest

- Membrane available in 5 different colours
- Plastic frame made of fibreglass-reinforced polyamide, covered with a 3D woven-knitted membrane, air- and moisture-permeable, wrinkle free, easy to clean, corresponding resilience of the membrane to retain the shape of the backrest
- Integrated height-adjustable (80 mm) and optionally depth-adjustable (10 mm) lumbar suppor
- Due to the dorsokinetic joint the backrest has an additional degree of freedom of 15° for backward movements and of 8° for lateral movements of the upper body
- Optional covered neck support with height (80 mm) and tilt adjustment (25°), for models in fabric in black imitation leather, for models in leather, the leather colour matches the upholstery choice
- Optional coat hanger in conjunction with neck support

Height-adjustable neck support

Armrests

- Height-adjustable plastic armrests (3611) in black, height adjustment 100 mm (200 - 300 mm), clear width 490 - 520 mm
- Optionally available 4D armrests with Softtouch pads, in model colour (3414) or in black with polished aluminium support (3484), height adjustment: 100 mm (200 - 300 mm), inside width 460 - 510 mm

Height-adjustable plastic armrests

4D armrests with soft-touch covers

Mechanism

- Similar mechanism with tension control: balanced force curve due to coordinated spring concept
- Seat and backrest move completely synchronised with the body
- Synchronicity relationship between seat and backrest 1:2.7
- Adaptation to different user weights enables sensitive latching of the rapid adjustment mechanism (leaning pressure 450 - 1200N and 550 - 1500N (stronger spring) (10N = 1 kg))
- Backrest inclination to approx. 32°, can be locked in virtually continuously variable manner (11 different settings)
- Permanent back support even when the backrest is inclined backwards at a wide angle, due to uniform force distribution of the mechanical springs
- Optional seat tilt adjustment (+0°; +2°; +4°), less pressure against the thighs without the user sliding out of the seat pan

Seat

- Anatomically shaped seating surface with pelvis support, seat hollow and rounded front edge of seat
- Shaped foam (polyurethane foam)
- Width 470 mm, depth 420 mm
- Optional sliding seat with seat depth 415 - 485 mm

Seat height-adjustment

- Sedo-lift mechanism III: complete cushioning of body weight, even in lowest seating position, no compression of the spine when sitting downprovided by pneumatic interlock, completely free of wear and tear, mechanical failure or gas lift replacement; height adjustment between 420 and 530 mm
- Optional gaslift for infinitely variable height adjustment 400 - 530 mm
- Optional gaslift for counter design with footring

Base

- Aluminium base, powder-coated, black, white aluminium or polished aluminium
- Optional plastic star base (glass-fibre reinforced polyamide), black or light grey
- Hard or soft castors with 65 mm diameter
- The backrest support always matches the star base, so a swivel chair with a polished star base automatically comes with a polished backrest support.

Sedus black dot net specification

Counter design

- Footring with 19 mm wide surface area, height-adjustable from 300 to 500 mm, diameter of 500 mm
- Footring and gas spring in black, footring finish in brushed aluminium
- Seat height 630 - 875 mm
- Constantly braked castors for safe mounting with full mobility of the chair, always with soft covering for improved grip even on smooth floors, 65 mm diameter
- Optional footrest 580 x 420 mm
- Recommended for user weights up to 110 kg
- GS label by TÜV Rheinland LGA Products GmbH / DIN EN 1335
- AGR quality seal - Healthy Backs Campaign

Footring

Footring with footrest

User weight

Norm			
DIN EN 1335-1:2023 untyped	■	0000	
DIN EN 1335-1:2023 type A (includes code 1503, 2203, 3424, 6003)	□	TYPA	

The backrest support always matches the aluminium star base, so a swivel chair with a polished star base automatically comes with a polished backrest support. The colour of the model determines the colour of the plastic star base and the plastic backrest support.
The armrests (3611, 3484) are always black, the 4D armrests (3414) come in the colour of the model.

Counter design in conjunction with:
- Similar mechanism code 1101
- Gaslift for counter design with footring code 1513
- Aluminium base code 2203
- Armrests code 3611, 3414 or 3484
- Constantly braked castors
- Optional footrest code 6233

Please note the information about the fabrics Morph and Steelcut Trio 3 of the Elegance Line on the page ‚Covering materials‘.

Sedus black dot specification

▶ Swivel chairs

Basic model

- Backrest upholstered, height-adjustable lumbar support, height-adjustable plastic armrests, Similar mechanism with tension control, Sedo-lift mechanism, aluminium base black, model colour black, hard castors for soft flooring

Backrest

- Integrated height-adjustable (80 mm)
- Due to the dorsokinetic joint the backrest has an additional degree of freedom of 15° for backward movements and of 8° for lateral movements of the upper body
- Backrest made of polypropylene
- Upholstery thickness 50 mm
- Back of backrest partially upholstered for pleasant feel to the touch
- Side ends of the upholstery made of air-permeable material in different coloured knitted spacer fabric (black)
- Optional for versions with the high backrest: neck support with height (80 mm) and tilt adjustment (25°), for fabric versions made of black imitation leather; for leather versions, neck support in the selected leather
- Optional coat hanger in conjunction with neck support

Height-adjustable neck support

Armrests

- Height-adjustable plastic armrests (3611) in black, height adjustment 100 mm (200 - 300 mm), clear width 490 - 520 mm
- Optionally available 4D armrests with Softtouch pads, in model colour (3414) or in black with polished aluminium support (3484), height adjustment 100 mm (200 - 300 mm), inside width 460 – 510 mm

Height-adjustable armrests with plastic covers

4D armrests with soft-touch covers

Mechanism

- Similar mechanism with tension control: balanced force curve due to coordinated spring concept
- Seat and backrest move completely synchronised with the body
- Synchronicity relationship between seat and backrest 1:2.7
- Backrest inclination to approx. 32°, can be locked in virtually continuously variable manner (11 different settings)
- Adaptation to different user weights enables sensitive latching of the rapid adjustment mechanism (leaning pressure 450 - 1200N and 550 - 1500N (stronger spring) (10N = 1 kg))
- Permanent back support even when the backrest is inclined backwards at a wide angle, due to uniform force distribution of the mechanical springs
- Optional seat tilt adjustment (+0°; +2°; +4°), less pressure against the thighs without the user sliding out of the seat pan

Seat

- Anatomically shaped seating surface with pelvis support, seat hollow and rounded front edge of seat
- Shaped foam (polyurethane foam)
- Width 470 mm, depth 400 mm
- Upholstery thickness 50 mm
- Optional sliding seat with seat depth 415 - 485 mm

Seat height-adjustment

- Sedo-lift mechanism III: complete cushioning of body weight, even in lowest seating position, no compression of the spine when sitting downprovided by pneumatic interlock, completely free of wear and tear, mechanical failure or gas lift replacement; height adjustment 420 - 530 mm
- Optional gaslift for infinitely variable height adjustment 400 - 530 mm
- Optional gaslift for counter design with footring

Base

- Aluminium base, powder-coated, black, white aluminium or polished aluminium
- Optional plastic star base (glass-fibre reinforced polyamide), black or light grey
- Hard or soft castors with 65 mm diameter
- The backrest support always matches the star base, so a swivel chair with a polished star base automatically comes with a polished backrest support.

Sedus black dot specification

Counter design

- Footring with 19 mm wide surface area, height-adjustable from 300 to 500 mm, diameter of 500 mm
- Footring and gas spring in black, footring finish in brushed aluminium
- Seat height 630 - 875 mm
- Constantly braked castors for safe mounting with full mobility of the chair, always with soft covering for improved grip even on smooth floors, 65 mm diameter
- Optional footrest 580 x 420 mm
- Recommended for user weights up to 110 kg
- GS label by TÜV Rheinland LGA Products GmbH / DIN EN 1335
- Tested for harmful substances by TÜV Rheinland LGA Products GmbH
- AGR quality seal - Healthy Backs Campaign

Footring

Footring with footrest

User weight

- Recommended for user weights up to 130 kg

Standards / Certificates

- GS label by TÜV Rheinland LGA Products GmbH / DIN EN 1335 / DIN 4573
- Ergonomics Certificate by TÜV Rheinland LGA Products GmbH
- Tested for harmful substances by TÜV Rheinland LGA Products GmbH
- QUALITY OFFICE quality seal
- GREENGUARD certified
- AGR quality seal - Healthy Backs Campaign
- Awarded BLAUER ENGEL
- All available certificates can be found at: https://www.sedus.com/en/products/chairs/black-dot

Design awards

- iF product design award 2007, Discipline Product

Warranty

- 5 years (see guarantee terms)
- 30 years for Sedo-lift mechanism (see guarantee terms)

▶ Visitor chairs

Basic model

- Backrest upholstered, standard armrests, steel frame black, model colour black, 4-leg version with stainless steel glides, cantilever chair without glides

Backrest

- Backrest made of polypropylene
- Upholstery thickness 40 mm

Armrests

- Armrests in polypropylene, black
- Dimensions of armrest pad 215 mm x 55 mm
- Armrest height 220 mm

Seat

- Shaped foam (polyurethane foam)
- Upholstery thickness 50 mm
- Width 450 mm, depth 470 mm

Sedus black dot specification

Frame	– 4-leg version: steel frame, diameter 22 mm, tube wall thickness 2 mm, stackable to 5 units, stainless steel glides, optionally with plastic or felt glides – Cantilever: steel frame, diameter 25 mm, tube wall thickness 2 mm, stackable to 5 units or not stackable, optionally with plastic or felt glides
User weight	– Recommended for user weights up to 110 kg (up to 150 kg for occasional use)

Sedus black dot 24 specification

▶ Swivel chair

Basic model

- Backrest with membrane cover, height-adjustable lumbar support, 4D armrests with soft-touch covers, Similar mechanism with tension control, sliding seat, Sedo-lift mechanism, aluminium base black, model colour black, hard castors for soft flooring

Backrest

- Due to the dorsokinetic joint the backrest has an additional degree of freedom of 15° for backward movements and of 8° for lateral movements of the upper body
- Black plastic frame made of fibreglass-reinforced polyamide, covered with a 3D woven-knitted membrane, air- and moisture-permeable, wrinkle free, easy to clean, corresponding resilience of the membrane to retain the shape of the backrest
- Membrane available in 5 different colours
- Optional backrest upholstered
- Upholstery thickness 50 mm
- Backrest made of polypropylene
- Back of backrest partially upholstered for pleasant feel to the touch
- Side ends of the upholstery made of air-permeable material in different coloured knitted spacer fabric (black)
- Integrated height-adjustable (80 mm) and optionally depth-adjustable (10 mm) lumbar suppor
- Optional covered neck support with height (80 mm) and tilt adjustment (25°), for models in fabric in black imitation leather, for models in leather, the leather colour matches the upholstery choice
- Optional coat hanger in conjunction with neck support

Height-adjustable neck support

Armrests

- 4D armrests with Softtouch pads in black and polished aluminium support (3484), height adjustment 100 mm (200 - 300 mm), inside width 460 – 510 mm

4D armrests with soft-touch covers

Mechanism

- Similar mechanism with tension control: balanced force curve due to coordinated spring concept
- Seat and backrest move completely synchronised with the body
- Synchronicity relationship between seat and backrest 1:2.7
- Adaptation to different user weights enables sensitive latching of the rapid adjustment mechanism (leaning pressure 550 - 1500N [10N = 1 kg])
- Backrest inclination to approx. 32°, can be locked in virtually continuously variable manner (11 different settings)

Seat

- Anatomically shaped seating surface with pelvis support, seat hollow and rounded front edge of seat
- Shaped foam (polyurethane foam)
- Seat size: width 495 mm
- Sliding seat with seat depth 420 - 490 mm

Seat height-adjustment

- Sedo-lift mechanism: complete cushioning of body weight, even in lowest seating position, no compression of the spine when sitting downprovided by hydraulic interlock, completely free of wear and tear, mechanical failure or gas lift replacement, height adjustment between 420 - 520 mm

Base

- Aluminium base, powder-coated, black, white aluminium, white or polished aluminium
- Hard or soft castors with 65 mm diameter
- The backrest support always matches the star base, so a swivel chair with a polished star base automatically comes with a polished backrest support.

User weight

- Recommended for user weights up to 150 kg

Sedus black dot+ specification

▶ Swivel chair

Basic model

- Seat and backrest upholstered with predefined contrast stitching, height-adjustable lumbar support, model colour black, 4D armrests with 360° rotatable soft-touch covers, sliding seat, Similar mechanism with tension control and forward tilt 4°, Sedo-lift mechanism, aluminium base black, hard castors for soft flooring

Backrest

- Lordosis adjustable in height by 80 mm (210 to 290 mm)
- For considerably enhanced freedom of movement, the backrest supports and the backrest are connected to each other by an articulated dorsal-kinetic feature
- Due to the dorsokinetic joint the backrest has an additional degree of freedom of 15° for backward movements and of 8° for lateral movements of the upper body
- Aluminium backrest support and polypropylene cover plate
- Upholstery thickness 60 mm, consists of 50 mm shaped foam and a 10 mm comfort foam layer
- Back of backrest partially upholstered for pleasant feel to the touch
- Side ends of the upholstery made of air-permeable material in different coloured knitted spacer fabric (black)
- Optional backrest with stronger or weaker backrest pressure
- Optional neck support with height (80 mm) and tilt adjustment (25°), for fabric versions made of black imitation leather; for leather versions, neck support in the selected leather. Optionally with standard or comfort neck support. Upholstery thickness: standard 15 mm, comfort 40 mm.

Standard neck support with height and tilt adjustment (7007)

Comfort neck support with height and tilt adjustment (7018)

Armrests

- 4D plastic armrests with 360° rotatable soft-touch covers made of PU material (3424) or, optionally, with imitation leather covers (3427), always in black. Armrest support in black with base colour black or white aluminium. With a polished base, the armrest support is polished
- Optionally available height-adjustable plastic armrests (3611) in black, height adjustment 190 - 300 mm, clear width 490 - 520 mm

4D armrests (3424, 3427)

Height-adjustable plastic armrests (3611)

▶ Swivel chairs

Basic model

- Seat and backrest upholstered with predefined contrast stitching, model colour black, 4D armrests with 360° rotatable soft-touch covers, sliding seat (60 mm), Similar mechanism with tension control and forward tilt 4°, Sedo-lift mechanism, aluminium base black, hard castors for soft flooring

Backrest

- Optional ergonomic inlay upholstery for precise support of the lumbar vertebra. By means of the zips in the fabric cover and the interior scale markings on the backrest, the pad can be easily positioned and also adjusted, if required. Available in five different sizes and depths. Two different types of foam with different degrees of hardness: made of firmer contour foam or VISCO-elastic foam, which adapts perfectly to the body and thus reduces pressure points.
- For considerably enhanced freedom of movement, the backrest supports and the backrest are connected to each other by an articulated dorsal-kinetic feature
- Due to the dorsokinetic joint the backrest has an additional degree of freedom of 15° for backward movements and of 8° for lateral movements of the upper body
- Aluminium backrest support and polypropylene cover plate
- Backrest foamed around with polyether foam
- Upholstery thickness 60 mm, consists of 50 mm shaped foam and a 10 mm comfort foam layer
- Back of backrest partially upholstered for pleasant feel to the touch
- Side ends of the upholstery made of air-permeable material in different coloured knitted spacer fabric (black)
- Optional backrest with stronger or weaker backrest pressure
- Optional for versions with the high backrest: neck support with height (80 mm) and tilt adjustment (25°), for fabric versions made of black vinyl; for leather versions, neck support in the selected leather; upholstery thickness: standard 15 mm, comfort 40 mm

Standard height-ajustable and swivel neck support (7007)

Comfort neck support with height and tilt adjustment (7018)

Armrests

- 4D plastic armrests with 360° rotatable soft-touch covers made of PUR material or, optionally, with imitation leather covers, always in black. Armrest support in black with base colour black or white aluminium. With a polished base, the armrest support is polished.

4D armrests

Mechanism

- Similar mechanism with tension control: balanced force curve due to coordinated spring concept
- Seat and backrest move completely synchronised with the body
- Synchronicity relationship between seat and backrest 1:2.7
- Adaptation to different user weights enables sensitive latching of the rapid adjustment mechanism (leaning pressure 450 - 1200N and 550 - 1500N (stronger spring) (10N = 1 kg))
- Backrest inclination to approx. 32°, can be locked in virtually continuously variable manner (11 different settings)
- Permanent back support even when the backrest is inclined backwards at a wide angle, due to uniform force distribution of the mechanical springs
- Seat tilt adjustment (+0°; +2°; +4°), less pressure against the thighs without the user sliding out of the seat pan

Seat

- Anatomically shaped seating surface with pelvis support, seat hollow and rounded front edge of seat
- Shaped foam (polyurethane foam)
- Upholstery thickness: 50 mm in the middle and 50 mm at the front edge of the seat
- Sliding seat with adjustment range 70 mm (seat depth 415 - 485 mm), width 470 mm, optionally with coccyx relief
- Optional sliding seat with adjustment range 100 mm (seat depth 395 - 495 mm), width 470 mm, also possible with coccyx relief

Seat height-adjustment

- Sedo-lift mechanism: complete cushioning of body weight, even in lowest seating position, no compression of the spine when sitting downprovided by hydraulic interlock, completely free of wear and tear, mechanical failure or gas lift replacement, height adjustment between 400 - 500 mm
- Optional gaslift for infinitely variable height adjustment 370 - 460 mm
- Optional Sedo-lift mechanism „high“, height adjustment between 460 - 560 mm

Base

- Aluminium base, powder-coated, black, white aluminium or polished aluminium
- Hard or soft castors with 65 mm diameter
- The backrest support always matches the star base, so a swivel chair with a polished star base automatically comes with a polished backrest support. On a swivel chair with powder-coated base, the supports are always black.

Sedus black dot+ ID specification

User weight	– Recommended for user weights up to 130 kg
Standards / Certificates	– GS label by TÜV Rheinland LGA Products GmbH / DIN EN 1335 / DIN 4573 – QUALITY OFFICE quality seal – GREENGUARD certified – AGR quality seal - Healthy Backs Campaign – Awarded BLAUER ENGEL – All available certificates can be found at: https://www.sedus.com/en/products/chairs/black-dot

Sedus open up specification

► Swivel chairs

Basic model

- Backrest with membrane cover, armrests with soft-touch covers, Similar mechanism with tension control, gaslift with mechanical depth-springing, aluminium base black, model colour black, hard castors for soft flooring

Backrest

- Backrest of frame fitted with membrane, optional flat cushion
- Flexible connection to the backrest frame (dorsokinetic system) ; in combination with the similar mechanism the backrest reaches wide open angle of 45 ° (depends on the weight of the user)
- Optional height adjustable lumbar support, upholstered with black fabric, 100 mm height adjustable for precise adaptation to the back of the user
- Neck support completely recovered with leather, adjustable in height and tilt, vertical 90 mm, forward 80 °; in black leather for models in fabric, for models in leather, the leather colour matches the upholstery choice

Armrests

- Standard armrests with soft-touch or leather covers
- Optinal 3D armrests with soft-touch or leather covers, height adjustment 100 mm (200 - 300 mm)

Standard armrests with soft-touch or leather covers

3D armrests

Mechanism

- Similar mechanism with tension control: balanced force curve due to coordinated spring concept
- Seat and backrest move completely synchronised with the body
- Synchronicity relationship between seat and backrest 1:2.7
- Adaptation to different user weights enables sensitive latching of the rapid adjustment mechanism (leaning pressure 450 - 1200N and 550 - 1500N (stronger spring) (10N = 1 kg))
- Backrest inclination to approx. 35°, can be locked in virtually continuously variable manner (11 different settings)
- Permanent back support even when the backrest is inclined backwards at a wide angle, due to uniform force distribution of the mechanical springs
- Optional seat-inclination adjustment mechanism (- 4°) for even less pressure on the upper thighs

Seat

- Anatomically shaped seating surface with pelvis support, seat hollow and rounded front edge of seat
- Shaped foam (polyurethane foam)
- Upholstery thickness 40 mm
- Width 485 mm, depth 450 mm, optional large seating 485 x 480 mm

Seat height-adjustment

- Gaslift with mechanical depth-springing: reinforced cushioning of the body‘s weight even in the lowest seat position, height adjustment 420 - 545 mm

Base

- Aluminium base, powder-coated, black, white aluminium, white or polished aluminium
- Hard or soft castors with 65 mm diameter

User weight

- Recommended for user weights up to 120 kg

Sedus open up modern classic specification

▶ Swivel chair

Basic model	– Dorsokinetic backrest, neck support, seat and armrest pads covered with the highest quality leather, 3D armrests, Similar mechanism with tension control, gaslift with mechanical depth-springing, aluminium base polished, hard castors for soft flooring
Backrest	– Backrest frame with triple stitched backrest upholstery in premium leather version – Flexible connection to the backrest frame (dorsokinetic system) ; in combination with the similar mechanism the backrest reaches wide open angle of 45 ° (depends on the weight of the user) – Neck support completely recovered with leather, adjustable in height and tilt, vertical 90 mm, forward 80 °
Armrests	– 3D armrests with leather covers, height adjustment 100 mm (210 - 310 mm)
Mechanism	– Similar mechanism with tension control: balanced force curve due to coordinated spring concept – Seat and backrest move completely synchronised with the body – Synchronicity relationship between seat and backrest 1:2.7 – Adaptation to different user weights enables sensitive latching of the rapid adjustment mechanism (leaning pressure 450 - 1200N and 550 - 1500N (stronger spring) [10N = 1 kg]) – Backrest inclination to approx. 35°, can be locked in virtually continuously variable manner (11 different settings) – Permanent back support even when the backrest is inclined backwards at a wide angle, due to uniform force distribution of the mechanical springs
Seat	– Anatomically shaped seating surface with pelvis support, seat hollow and rounded front edge of seat – Shaped foam (polyurethane foam) – Upholstery thickness 40 mm – Width 485 mm, depth 450 mm
Seat height-adjustment	– Gaslift with mechanical depth-springing: reinforced cushioning of the body‘s weight even in the lowest seat position, height adjustment 420 - 545 mm
Base	– Aluminium base polished – Hard or soft castors with 65 mm diameter
User weight	– Recommended for user weights up to 120 kg
Warranty	– 5 years (see guarantee terms)

▶ Cantilever visitor chair

Basic model	– Backrest, seat and armrest pads covered with the highest quality leather, steel frame not stackable chromed, model colour black
Armrests	– Steel armrests with leather covers
Seat	– Shaped foam (polyurethane foam) – Upholstery thickness 40 mm – Height 500 mm, width 420 mm
Frame	– Steel frame, diameter 25 mm, tube wall thickness 2 mm
User weight	– Recommended for user weights up to 110 kg (up to 150 kg for non-constant use)
Warranty	– 5 years (see guarantee terms)

crossline

The heart of crossline is the patented Similar-Plus mechanism that makes sitting a “perfectly balanced” experience and ensures a previously unattainable even sequence of movements.

Swivel chair from 1.122,–

Swivel partner chair from 1.034,–

Sedus crossline specification

▶ Swivel chairs

Basic model

- Backrest upholstered, height-adjustable lumbar support, multifunction armrests in plastic with soft-touch covers, Similar-Plus mechanism, Sedo-lift mechanism, aluminium base black, model colour black, hard castors for soft flooring

Backrest

- Supporting structure in polyamide
- Upholstery construction consisting of a flexible padded polypropylene frame with soft slats
- Upholstery construction on supporting structure movable due to rotating bearings (at shoulder height) and sliding bearings (below the region of the iliac crest)
- Lumbar support adjustable by up to 60 mm
- Version in leather has ribbed backrest upholstery

Armrests

- Multifunctional 3D armrests with soft-touch or leather covers, height adjustment 90 mm (220 - 310 mm), clear width 460 - 510 mm

Multifunction armrests with soft-touch or leather covers

Mechanism

- Similar-Plus mechanism with tension control: balanced force curve thanks to coordinated spring concept
- Seat and backrest move completely synchronised with the body
- Synchronicity relationship between seat and backrest 1:3.3
- Sensitive locking of quick adjustment facilitates adaptation to different users' body weight (500 to 1500 N [10 N = 1 kg])
- With pre-selectable backrest opening angle in four stages up to 32° (0°, 11°, 20° and 32°)
- Permanent back support guaranteed even with the seat tilted far back due to the balanced force progression of the mechanical spring
- Opional seat-inclination adjustment mechanism (- 4°) for even less pressure on the upper thighs

Seat

- Generously upholstered seat pan, with cave-in effect seat-leg hump, front edge of seat rounded
- Shaped foam (polyurethane foam)
- Upholstery thickness 50 mm
- Width 490 mm, depth 435 mm
- Optinal sliding seat (depth 425 - 475 mm) with return function

Seat height-adjustment

- Sedo-lift mechanism III: complete cushioning of body weight, even in lowest seating position, no compression of the spine when sitting downprovided by pneumatic interlock, completely free of wear and tear, mechanical failure or gas lift replacement, height adjustment between 420 - 540 mm

Base

- Aluminium base, powder-coated, black, white aluminium or polished aluminium
- The design of the base determines the design of the backrest support.
- Hard or soft castors with 65 mm diameter

User weight

- Recommended for user weights up to 120 kg

Standards / Certificates

- GS label by TÜV Rheinland LGA Products GmbH / DIN EN 1335 / DIN 4573
- Ergonomics Certificate by TÜV Rheinland LGA Products GmbH
- Tested for harmful substances by TÜV Rheinland LGA Products GmbH
- QUALITY OFFICE quality seal
- GREENGUARD certified
- AGR quality seal - Healthy Backs Campaign (cn-100)

▶ Swivel partner chair

Basic model
- Backrest upholstered, aluminium armrests with plastic covers, central seat spring, aluminium base black, model colour black, plastic glides

Backrest
- Supporting structure in polyamide
- Upholstery construction consisting of a flexible padded polypropylene frame with soft slats
- Mechanism enables the backrest to move (up to 10°) with the user for comfortable sitting even during protracted meetings
- Version in leather has ribbed backrest upholstery

Armrests
- Aluminium armrests with plastic or leather covers
- Dimensions 215 mm x 30 mm
- Clear width 480 mm

Seat
- Seat with generously upholstered seat pan, front edge of seat rounded
- Shaped foam (polyurethane foam)
- Upholstery thickness 50 mm
- Width 490 mm, depth 430 mm

Seat height-adjustment
- Central seat spring, not height-adjustable, seat height 430 mm
- Optional gaslift with mechanical depth-springing: reinforced cushioning of the body's weight even in the lowest seat position, height adjustment 380 - 500 mm

Base
- Aluminium base, powder-coated, black, white aluminium or polished aluminium
- Plastic glides, optional felt glides
- Optionally with hard or soft castors (diameter 65 mm)

User weight
- Recommended for user weights up to 110 kg

Sedus mr. 24 specification

▶ Swivel chair

Basic model

- Backrest upholstered, height-adjustable lumbar support, 3D armrests with soft-touch covers, Similar mechanism with tension control, Sedo-lift mechanism, aluminium base black, model colour black, hard castors for soft flooring

Backrest

- Comfortable upholstery with quilted seams for optimum pressure distribution
- Backrest covered in fabric on all sides
- All-round edge frame in polyurethane for the backrest to protect edges and upholstery
- Thickness of foam on backrest upholstery 40 mm + 10 mm web
- Backrest upholstery can be changed
- Height- (70 mm) and depth-adjustable (40 mm) lumbar support
- Optional neck support covered in black imitation leather, adjustable in height and tilt, vertical 50 mm, forward/back 22.5 °
- Or neck support with ultra comfortable upholstery and covered in black leather, chrome-plated supports, with height adjustment 50 mm in five stages

Adjustable neck support

Height-adjustable neck support

Armrests

- 3D armrests with soft-touch or leather covers, height adjustment 110 mm (190 - 300 mm)
- Armrest width adjustment 2 x 50 mm to the inside and outside to adjust the clear width (no tools required)
- Additional width adjustment of 2 x 15 mm using tools
- Armrest depth adjustment 80 mm

3D armrests with soft-touch or with leather covers

Mechanism

- Similar mechanism with tension control: balanced force curve due to coordinated spring concept
- Seat and backrest move completely synchronised with the body
- Synchronicity relationship between seat and backrest 1:2.7
- Adaptation to different user weights enables sensitive latching of the rapid adjustment mechanism (leaning pressure 550 - 1500N [10N = 1 kg])
- Backrest inclination to approx. 32°, can be locked in virtually continuously variable manner (11 different settings)
- Permanent back support even when the backrest is inclined backwards at a wide angle, due to uniform force distribution of the mechanical springs

Seat

- Comfortable upholstery with quilted seams for optimum pressure distribution
- Anatomically shaped seating surface with pelvis support and rounded front edge of seat
- Upholstery thickness 50 mm
- All-round edge frame in polyurethane for seat to protect edges and upholstery
- Seat upholstery can be changed
- Sliding seat with a seat surface depth adjustment of 425 to 495 mm and seat width of 480 mm, also available with a larger sliding seat and a seat depth adjustment from 460 mm to 530 mm

Seat height-adjustment

- Sedo-lift mechanism: complete cushioning of body weight, even in lowest seating position, no compression of the spine when sitting downprovided by hydraulic interlock, completely free of wear and tear, mechanical failure or gas lift replacement, height adjustment between 420 - 520 mm

Base

- Aluminium base powder-coated black or polished
- Hard or soft castors with 65 mm diameter

User weight

- Recommended for user weights up to 200 kg

Sedus mr. 24 specification

Standards / Certificates

- GS label by TÜV Rheinland LGA Products GmbH / DIN EN 1335 / DIN 4573
- Ergonomics Certificate by TÜV Rheinland LGA Products GmbH
- Tested for harmful substances by TÜV Rheinland LGA Products GmbH
- AGR quality seal - Healthy Backs Campaign
- ANSI/BIFMA X5.1
- BS 5459-2: 2000
- All available certificates can be found at: https://www.sedus.com/en/products/chairs/mr24

Warranty

- 5 years (see guarantee terms)
- 30 years for Sedo-lift mechanism (see guarantee terms)

se:mood

sedus

se:mood is a light, universally suitable visitor chair with a special design concept. Due to the innovative approach to motion, the se:mood provides for an activating movement of the backrest and, therefore, for extra comfort.

Sedus se:joy specification

▶ Easy office / conference swivel chair

Sales argumentation	– With the “comfo flex“, the se:joy with its distinctive characteristics has received an update and now delivers even more dynamic performance. The supporting structure has been optimised to provide even more freedom of movement. – Seat and backrest in a single-piece supporting structure with membrane cover in knitted fabric provide a comfortable, ergonomic sitting position – Innovative fabric structures on the seat (supporting structure) and backrest (flexible structure) provide a supporting sitting zone with an elastic backrest area at the same time with no wearing out over the longterm – Lightweight yet structure-giving design for emotional appeal and a stimulating working environment
Perfect suitability	– Meetings, conferences, temporary project and office workspaces, visitor areas and home offices
Basic model	– Seat and backrest covered with a knitted membrane, rotating function, swing mechanism, adjustable backrest, continuous height adjustment using a gas spring and mechanical depth suspension, plastic armrest
Backrest	– Seat and backrest made from a single support structure with a membrane cover made from a knitted fabric guarantee a comfortable and ergonomic sitting position – Generously proportioned backrest suitable for almost every body size
Armrests	– Ergonomically shaped plastic armrests to take the load from the shoulders and neck muscles – Can be optionally omitted from the basic model
Seat height-adjustment	– Continuous height adjustment using a low-friction gas spring with mechanical depth suspension, suspension of the body weight even in the lowest seating position, suitable for almost every body size – Seat height from 390 mm to 510 mm, height adjustment 120 mm
Base	– Plastic (glass fibre-reinforced polyamide) cross-shaped base, black or light grey, Ø 65 mm castors – Hard or soft castors at the customer‘s option
Counter design	– Footring with 19 mm wide surface area, height-adjustable from 300 to 500 mm, diameter of 500 mm – Footring and gas spring in black, footring finish in brushed aluminium – Aluminium base – Seat height 630 - 880 mm – Constantly braked castors for safe mounting with full mobility of the chair, always with soft covering for improved grip even on smooth floors, 65 mm diameter – Recommended for user weights up to 110 kg Footring
User weight	– Recommended for user weights up to 130 kg

Sedus turn around specification

▶ High desk chair, swivel chair

Backrest

- One-piece polypropylene shell, up to 40% recycled material
- Backrest with wrap-around shell contour allows change of posture for laterally turned in seat positions
- Upholstery thickness 40 mm
- Backrest upholstery with all-round upholstered surface at the backrest interface, integrated armrest pads and lumbar support shape

Mechanism

- The bottom of the shell ends with a form-fit to the swing mechanism. It allows movement backwards and forwards

Seat

- Seat in round basic shape with all-round dynamic chamfer on the front edge of the seat: Getting on from the side and standing sitting are made easier
- Upholstery thickness 70 mm

Seat height-adjustment

- High desk chair: gas spring for infinitely variable height adjustment 600 - 860 mm
- Swivel chair: gas spring for infinitely variable height adjustment 420 - 550 mm; optional Sedo-lift mechanism III: complete cushioning of body weight, even in lowest seating position, no compression of the spine when sitting downprovided by pneumatic interlock, completely free of wear and tear, mechanical failure or gas lift replacement, height adjustment between 430 - 540 mm

Base

- Aluminium base powder coated black, clear white or polished
- High desk chair: footring height adjustable with easily recognisable adjusting wheel, with 19 mm wide contact surface and a diameter of 500 mm, adjustment range 200 mm, footring and gas spring in black, footring finish in brushed aluminium, constantly braked castors for safe mounting with full mobility of the chair, always with soft covering for improved grip even on smooth floors, 65 mm diameter, optionally plastic or felt glides
- Swivel chair: hard or soft castors with 65 mm diameter, optional plastic or felt glides; optional Sedo-lift mechanism III: complete cushioning of body weight, even in lowest seating position, no compression of the spine when sitting downprovided by pneumatic interlock, completely free of wear and tear, mechanical failure or gas lift replacement, height adjustment between 420 - 530 mm

User weight

- Recommended for user weights up to 110 kg (tu-181) or 150 kg (tu-180)

Standards / Certificates

Sedus se:spot specification

▶ Four-leg chair

Upholstery

- The changeable upholstery, which gives the chair the impression of being fully upholstered, can be fitted or exchanged at any time without the need for tools
- The upholstery comprises two parts: the front features 10 mm-thick foam wrapped in velour; the outer cover is available in Nexus Graphite UNY11 (4N1) or Nexus Storm UNY07 (4N2).

Shell

- One-piece seat made of polypropylene, ergonomically shaped with lumbar curvature, tapered backrest, gently shaped seat recess and slightly sloping, all-round bevelled seat
- Sitting position between an active and a relaxed posture for use in combination with meeting tables
- Available in five different colours: clear white (traffic white RAL 9016), black (graphite black RAL 9011), silk grey (NCS S 2002Y), antique pink (Pantone 16-1508 TPX-Adobe Rose), fjord green (NCS S4010-B50G/RAL 20060069)

Cushions

- Upholstered cushion, approx. 16 mm thick with an approx. 10 mm foam filling, sown with 2 x approx. 3 mm layers of genuine wool felt, non-slip finish on the underside
- Either grey or graphite; the underside is always anthracite

Frame

- Three different frame versions are available:
- (1) Wooden frame: solid wood tapered legs, attached to a die-cast aluminium support plate, sandblasted with powder coating. Chair legs in natural and black beech and natural oak.
- (2) Steel frame, non-stackable, powdered or chrome-plated.
- (3) Steel frame, stackable with integrated plastic stacking tray to protect the seat and upholstery, powdered or chrome-plated, up to 10 chairs can be stacked.
- All steel frames are 18 mm in diameter with a wall thickness of 2.0 mm
- Steel frames feature inclinable glides. All frames come with plastic or felt glides

User weight

- Recommended for user weights up to 110 kg (up to 150 kg for occasional use)

Standards / Certificates

- GS label by TÜV Rheinland LGA Products GmbH / DIN EN 16139 L1
- Tested for harmful substances by TÜV Rheinland LGA Products GmbH
- GREENGUARD certified
- All available certificates can be found at: https://www.sedus.com/en/products/chairs/sespot

▶ low table, lounge table

Frame system

- Steel column with aluminium star base (4 arms)
- Steel column diameter 60 mm, thickness 2 mm
- Steel column and aluminium star base powder coated or chrome-plated steel column and polished aluminium star base
- Polypropylene plastic glides for soft floors, option with felt glides for hard floors
- low table: table height 425 mm (CDF), 435 mm (chipboard)
- lounge table: table height 680 mm (CDF), 690 mm (chipboard)

Sedus sweetspot specification

Surfaces	– 12 mm table top in CDF, edges black, with 30° chamfer, colour pure white (T14) – Also available with 19 mm chipboard in: – 1. Melamine resin coating in a single colour or various decorative wood effects (top surface compliant with EN 14322). The minimum light fastness is 6 on the wool scale. Substrate compliant with EN 312-2003. – 2. High-quality crown cut veneer surface, 3 mm veneer edge on all sides. Surface in a high quality, durable, two-component water-based polyurethane lacquer. – With the exception of the melamine finish in pure white and graphite black, the HPL finish white and black, the real wood veneers ash white, ash black, wenge varnished oak and dark walnut, the gloss and reflection levels of the surfaces equate to DIN Special Report 147 – 3. HPL surface soft touch: The matt soft touch surface is a laminate based on hardenable resins. The top layer of paper is coated in a separate manufacturing process and then electron beam hardened. The result is a velvety, warm surface with anti-fingerprint properties, characterised by its high resistance to abrasion, impact and scratches. – E1 quality wood materials – Veneer is a natural product. The colour of the veneer is determined by the type and structure of the wood, and may vary. All woods change colour over time because of the effects of light. As such, the veneer may be markedly different from the sample at the time of delivery. Natural differences are not a cause for complaint, but in fact confirm that the material is genuine. – Square tables with rounded corners (radius 50 mm)
Veneer grain/design grain	– Design and veneer grain run lengthwise
Warranty	– 5 years (see guarantee terms)

▶ side table

Frame system	– Steel column with aluminium star base (2 arms) – Steel column diameter 25 mm, thickness 2 mm – Steel column and aluminium star base powder coated or chrome-plated steel column and polished aluminium star base – Polypropylene plastic glides for soft floors, option with felt glides for hard floors – Ttable height 680 mm, cover cap plastic, black
Surfaces	– 12 mm table top in CDF, edges black, with 30° chamfer – Ø 400 mm, with (se-313) or without (se-312) round opening (Ø 40 mm) in the table top to pick up and move the table
Veneer grain/design grain	– Design and veneer grain run lengthwise
Warranty	– 5 years (see guarantee terms)

Sedus meet table specification

▶ Bistro tables, standing tables

Frame system	– Steel column with aluminium star base (4 arms) – Steel column diameter 60 mm, thickness 2 mm – Steel column and aluminium star base powder coated or chrome-plated steel column and polished aluminium star base – Polypropylene plastic glides for soft floors, option with felt glides for hard floors – Bistro table low: table height 680 mm (CDF), 690 mm (chipboard) – Bistro table: table height 730 mm (CDF), 740 mm (chipboard) – Standing table: table height 1110 mm (CDF), 1120 mm (chipboard)
Surfaces	– 12 mm table top in CDF, edges black, with 30° chamfer, colour pure white (T14) – Also available with 19 mm chipboard in: – 1. Melamine resin coating in a single colour or various decorative wood effects (top surface compliant with EN 14322). The minimum light fastness is 6 on the wool scale. Substrate compliant with EN 312-2003. – 2. High-quality crown cut veneer surface, 3 mm veneer edge on all sides. Surface in a high quality, durable, two-component water-based polyurethane lacquer. – 3. HPL surface soft touch: The matt soft touch surface is a laminate based on hardenable resins. The top layer of paper is coated in a separate manufacturing process and then electron beam hardened. The result is a velvety, warm surface with anti-fingerprint properties, characterised by its high resistance to abrasion, impact and scratches. – With the exception of the melamine finish in pure white and graphite black, the HPL finish white and black, the real wood veneers ash white, ash black, wenge varnished oak and dark walnut, the gloss and reflection levels of the surfaces equate to DIN Special Report 147 – E1 quality wood materials – Veneer is a natural product. The colour of the veneer is determined by the type and structure of the wood, and may vary. All woods change colour over time because of the effects of light. As such, the veneer may be markedly different from the sample at the time of delivery. Natural differences are not a cause for complaint, but in fact confirm that the material is genuine. – Square tables with rounded corners (radius 50 mm)
Veneer grain/design grain	– Design and veneer grain run lengthwise
Warranty	– 5 years (see guarantee terms)

▶ Standing table fold-down, connecting top over easy

Frame system	– Standing table: – Frame consisting of three continuous angled legs in precision steel tube (diameter 25 mm, thickness 2 mm), connected by an elegant knot made of polyamide with a percentage of glass fibre – Folding table top with intuitively tilting leg – Chromed surface, knot black, felt glides – Table height 1120 mm (CDF), 1130 mm (chipboard) – Weight (Ø 700 mm): 12 kg (CDF), 10 kg (chipboard)

Sedus meet table specification

Surfaces

- Standing table:
- 12 mm table top in CDF, edges black, with 30° chamfer, colour pure white (T14)
- Also available with 19 mm chipboard in:
- 1, Melamine resin coating in a single colour or various decorative wood effects (top surface compliant with EN 14322). The minimum light fastness is 6 on the wool scale. Substrate compliant with EN 312-2003.
- 2. High-quality crown cut veneer surface, 3 mm veneer edge on all sides. Surface in a high quality, durable, two-component water-based polyurethane lacquer.
- 3. HPL surface soft touch: The matt soft touch surface is a laminate based on hardenable resins. The top layer of paper is coated in a separate manufacturing process and then electron beam hardened. The result is a velvety, warm surface with anti-fingerprint properties, characterised by its high resistance to abrasion, impact and scratches.
- With the exception of the melamine finish in pure white and graphite black, the HPL finish white and black, the real wood veneers ash white, ash black, wenge varnished oak and dark walnut, the gloss and reflection levels of the surfaces equate to DIN Special Report 147
- E1 quality wood materials
- Veneer is a natural product. The colour of the veneer is determined by the type and structure of the wood, and may vary. All woods change colour over time because of the effects of light. As such, the veneer may be markedly different from the sample at the time of delivery. Natural differences are not a cause for complaint, but in fact confirm that the material is genuine.
- Connecting top over easy:
- CDF, edges black, all-round 27° chamfer on the underside, panel thickness 19 mm
- Available in the colours pure white (T14) and anthracite (T77)
- Panel surfaces of standing tables visible through differently-sized cut-outs, optional without cut-outs
- Size of cut-outs on mt-323/3601: 1 x Ø 600 mm, 1 x Ø 500 mm; on mt-323/3602: 2 x Ø 600 mm, 1 x Ø 500 mm

Sedus se:works specification

▶ Lounge furniture

Construction and upholstery-construction	– Base frame made of steel, consisting of horizontally extending support beams and laterally positioned steel legs. Foot panels made from aluminium or wood. – Seat upholstery consisting of wooden frame with an elastic membrane as the base upholstery, and topped with two-layer construction of polyurethane and polyether foam in various thicknesses and compression hardnesses. Polyurethane: thickness 15 mm, density 60 kg/m³, compression hardness 7.0, and polyether foam: 70 mm, density 50 kg/m³, compression hardness 4.0. Cover with upholstery web density 200 g/m³. Front edge of seat rounded. – Backrest upholstery with anatomically shaped lumbar support. Wooden supporting structure, polyether foam, thickness 110 mm, density 40 kg/m³, compression hardness 3.0. Cover with upholstery web. – Screen element consisting of wooden carcass. Topped with an upholstery construction of polyurethane and polyether foam covered with upholstery web. Height: 1230 mm, thickness: 30 mm. – Covers not glued into place – Overall design in parametric basic structure, so that linear sofa elements can be configured in individual lengths to the nearest centimetre as required
Covering materials	– Note on collection Remix and Cura: these collections are durable and elegant fabrics, which set themself apart from other Sedus collections through their high level of resilience. With intensive use, partial creases may develop as a result, for which the fabric cannot fully compensate. This does not constitute grounds for complaint.
Fire protection	– Option of highly flame resistant version. Seat, backrest and screen element foams in flame-retardant quality, cover in flame-retardant wadding. Seat foam: density 35 kg/m³, compression hardness 4.0. Backrest and armrest foam: 37 kg/m³, compression hardness 3.2. – Test certificate according to DIN 66084 P-a – Test certificates apply to the Step collection. The test certificates do not cover storage surfaces, writing tray or foot panels made of wood
Version	– Complete models: armchair, two-seater sofa, three-seater sofa – Solitary elements for modular configuration: stool, 2-seater or 3-seater benches, can be combined with backrests, corner backs, screen elements or storage surfaces – Linkable elements for modular configuration. Suitable for seating areas in the “endless method”: – Suggested configurations: to facilitate planning, sofa elements are pre-configured to reflect common applications
Frame system	– Foot panels, aluminium powder coated black, clear white, fjord green, cayenne red, sand beige or polished – Optional foot panels in natural beech B26, black B45, white B46 or natural oak C11 – Black powder coated frame as standard – Universal plastic glides made of polyamide for hard and soft floors
Tray	– Writing tray for temporary use by someone working with a laptop. Work surface can be individually adjusted horizontally at two pivot points. Retrofitting, dismantling and individual positioning along the front edge of the seat of the sofa possible by means of a screw connection. – 12 mm table top made of CDF, black edges, colour pure white (T14) or black (T17) – Frame optionally powder coated in black or clear white – Tray height 660 mm
Storage surface	– Storage surface made from 50 mm three-layer chipboard in: – 1. Melamine finish (colour pure white K14, graphite black K70), finished with all-round edging – 2. High-quality crown cut veneer surface, 3 mm veneer edge on all sides. Surface in a high quality, durable, two-component water-based polyurethane lacquer. – 3. Linoleum with real wood in hickory natural (Q10), optionally other veneer edges according to the Sedus veneer range – E1 quality wood materials – Veneer is a natural product. The colour of the veneer is determined by the type and structure of the wood, and may vary. All woods change colour over time because of the effects of light. As such, the veneer may be markedly different from the sample at the time of delivery. Natural differences are not a cause for complaint, but in fact confirm that the material is genuine.
focus light	– Lounge furniture for focused solo working, consisting of seating upholstery including corner back and storage surface plus screen elements on back and front. – Storage surface see surface matrix – Available in two versions: seat right, storage surface left or seat left, storage surface right – Construction, upholstery construction and frame corresponding to the rest of the se:works product family – Can be combined and retrofitted with an additional, individually adjustable writing tray

Sedus se:works specification

Table	– 19 mm table top made of CDF, black edges, colour pure white (T14) – Optional 19 mm three-layer chipboard in: – 1. Melamine resin coating in a single colour or various decorative wood effects (top surface compliant with EN 14322), with all-round PP laser edge in the same colour as the top. The minimum light fastness is 6 on the wool scale. Substrate compliant with EN 312-2003. – 2. High-quality crown cut veneer surface (beech, oak, ash and walnut), 3 mm veneer edge on all sides. Surface in a high quality, durable, two-component water-based polyurethane lacquer. – With the exception of the melamine finish in pure white and graphite black, the HPL finish white and black, the real wood veneers ash white, ash black, wenge varnished oak and dark walnut, the gloss and reflection levels of the surfaces equate to DIN Special Report 147 – E1 quality wood materials – Veneer is a natural product. The colour of the veneer is determined by the type and structure of the wood, and may vary. All woods change colour over time because of the effects of light. Natural differences are not a cause for complaint, but in fact confirm that the material is genuine. – Column and base powder coated in black or white – Table height 680 mm
assistant	– Height-adjustable single table for short periods of working on a laptop – 12 mm top made of CDF, edges in black, colour pure white (T14) or black (T17) – Frame consisting of base plate (three supports, steel) and height-adjustable gas spring, powder coated in black or white – Height-adjustable from approx. 470 – 775 mm
User weight	– Recommended for user weights up to 110 kg per seat (up to 150 kg per seat for occasional use)
Veneer grain/design grain	– Design and veneer grain runs lengthwise
Electrification	– power supply: housing in clear white or black. Equipped with 2 power connections or 1 power connection and 1 USB charger. Incl. 1.5 m power cable. Sockets in a protected position under the front seat edge, can be moved. Electrical connection unit can be retrofitted and removed, can be ordered from the “power & data” price list under pd-001/8908 or 8909. – Storage surface - built-in socket module Point: socket module in chrome matt look. Incl. 3 m power cable. The storage shelf must be prepared for the installation of the socket module. Can be ordered from the “power & data” price list under pd-001/8749. – Storage surface - wireless charger visible: socket in brushed stainless steel. The storage shelf must be prepared for the installation of the charger. Can be ordered from the “power & data” price list under pd-201/8970-154.
Dimensions	– Seat height when not in use 445 mm – Seat height when in use 380 mm – Backrest height 315 mm – Seat depth (design with backrest) when not in use 495 mm
Standards / Certificates	– GS label by TÜV Rheinland LGA Products GmbH / DIN EN 16139 L1 – GREENGUARD certified – All available certificates can be found at: https://www.sedus.com/en/products/chairs/seworks
Design awards	– ICONIC AWARDS 2017: Interior Innovation – Winner – Red Dot Award 2017, Winner – German Design Award 2018, Winner
Warranty	– 5 years (see guarantee terms)

▶ Complete models

Construction and upholstery-construction	– Base frame: metal base frame made of steel, lined with wood all round, springwood slats for comfortable seat suspension, cover with upholstery felt – Seat upholstery: 70 mm polyether foam / density 35 kg/m³, polyether foam 50 mm / density 40 kg/m³, upholstery fleece 10 mm – Backrest upholstery: 25 mm polyether foam / density 50 kg/m³ – Front sides in the cover material of the basic model, optionally also in a different cover colour
Cushions	– Loosely lying back cushions in the cover material of the basic model, optionally also in a different cover colour – Back and side cushions worked in chambers, filled with polyether rods and fiberfill – Optional additional side cushions in left or right versions – Optional additional loose upholstered element
Version	– Armchair with back cushion, two-seater sofa with two back cushions , three-seater sofa with three back cushions
Frame	– Aluminium feet polished – Optional stainless steel skid frame
User weight	– Recommended for user weights up to 110 kg per seat (up to 150 kg per seat for occasional use)
Electrification	– Power supply: socket module for hooking onto a sopha armrest – Model: 3 x power or 2 x power, 1 x USB charger with 2 sockets, power cable of about 3 m in length – Powder coated aluminium in the colours black or white – Power supply, can be ordered from the “power & data” price list under pd-002/8904 or 8905
Standards / Certificates	– GREENGUARD certified – All available certificates can be found at: https://www.sedus.com/en/products/chairs/sopha
Warranty	– 5 years (see guarantee terms)

▶ Modular configuration

Construction and upholstery-construction	– Base frame: metal base frame made of steel, lined with wood all round, springwood slats for comfortable seat suspension, cover with upholstery felt – Seat upholstery: 70 mm polyether foam / density 35 kg/m³, polyether foam 50 mm / density 40 kg/m³, upholstery fleece 10 mm – Backrest upholstery: 25 mm polyether foam / density 50 kg/m³ – Front sides in the cover material of the basic model, optionally also in a different cover colour
Cushions	– Loosely lying back cushions in the cover material of the basic model, optionally also in a different cover colour – Back and side cushions worked in chambers, filled with polyether rods and fiberfill – Optional additional side cushions in left or right versions – Optional additional loose upholstered element
Version	– Comfortable stool, two or three-seater benches as the basis for modular models – Can be combined with corner and add-on back or corner and add-on back with add-on element (400 mm) or with raised add-on element (600 mm)
Frame	– Aluminium feet polished – Optional stainless steel skid frame
User weight	– Recommended for user weights up to 110 kg per seat (up to 150 kg per seat for occasional use)
Electrification	– Power supply: socket module for hooking onto a sopha armrest – Model: 3 x power or 2 x power, 1 x USB charger with 2 sockets, power cable of about 3 m in length – Powder coated aluminium in the colours black or white – Power supply, can be ordered from the “power & data” price list under pd-002/8904 or 8905

▶ diner

Construction and upholstery construction	– Base frame: metal base frame made of steel, lined with wood all round, springwood slats for comfortable seat suspension, cover with upholstery felt – Seat upholstery: 70 mm polyether foam / density 35 kg/m³, polyether foam 50 mm / density 40 kg/m³, upholstery fleece 10 mm – Backrest upholstery: 25 mm polyether foam / density 50 kg/m³ – Front sides in the cover material of the basic model, optionally also in a different cover colour
Cushions	– Loosely lying back cushions in the cover material of the basic model, optionally also in a different cover colour – Back and side cushions worked in chambers, filled with polyether rods and fiberfill – Optional additional side cushions in left or right versions – Optional additional loose upholstered element
Version	– Two 1-seater, 2-seater or 3-seater sopha elements, connected by a centre panel of the same height with integrated table – Optional 200 mm higher version and closed side elements (for sp-522 and sp-523)
Frame	– Aluminium feet polished – Optional stainless steel skid frame
Table	– 25 mm three-layer chipboard in: – 1. Melamine resin coating in a single colour or various decorative wood effects (top surface compliant with EN 14322). The minimum light fastness is 6 on the wool scale. Substrate compliant with EN 312-2003. – 2. High-quality crown cut veneer surface, 3 mm veneer edge on all sides. Surface in a high quality, durable, two-component water-based polyurethane lacquer. – 3. Linoleum with real wood in hickory natural (Q10), optionally other veneer edges according to the Sedus veneer range – 4. HPL surface soft touch: The matt soft touch surface is a laminate based on hardenable resins. The top layer of paper is coated in a separate manufacturing process and then electron beam hardened. The result is a velvety, warm surface with anti-fingerprint properties, characterised by its high resistance to abrasion, impact and scratches. – With the exception of the melamine finish in pure white and graphite black, the HPL finish white and black, the real wood veneers ash white, ash black, wenge varnished oak and dark walnut, the gloss and reflection levels of the surfaces equate to DIN Special Report 147 – E1 quality wood materials – Table leg, steel chromed or matt brushed – Optional preparation to accommodate the built-in socket module Power Frame as well as the wireless charger
User weight	– Recommended for user weights up to 110 kg per seat (up to 150 kg per seat for occasional use)
Electrification	– Built-in socket module Power Frame, can be ordered from the “power & data” price list under pd-001/8748 – Wireless charger, can be ordered from the “power & data” price list under pd-201/8970
Standards / Certificates	– GREENGUARD certified – All available certificates can be found at: https://www.sedus.com/en/products/chairs/sopha
Warranty	– 5 years (see guarantee terms)

Position of the table top cut-out			
Centred	□	6122	

Electrification:
You can see the positioning of the electrification on the table top on the page ‚Positions for electrification'. From the "power & data" price list you can choose the built-in socket module and the charger. Boat shaped single tables (code 1645 and 1654) have two positions for electrification, one in each half of the table top. When combining grommets/prepared openings for desk connection panels, some width/depth-dependent configurations or those with a cable tray are not possible. For visualisation of the possible combinations, please refer to the OFML files.

Cable tray set:
A cable tray set may consist of cable trays of various lengths. Please find information on the dimensions of the individual cable trays on the page ‚mastermind Accessories'.

Surfaces:
Models mm-3000/1145, mm-3720/1432 and mm-3730/1850: HPL surface on request
Boat-shaped table mm-3000/1654: melamine likewood oak on request
Information on the surface finishes can be found in the surface matrix on the ‚Surfaces' page.

Position of the table top cut-out			
Centred	□	6122	
Towards the outside	□	6123	

Electrification:
You can see the positioning of the electrification on the table top on the page ‚Positions for electrification'. For the 150° angular element the position of the electrification is always towards the outside. From the "power & data" price list you can choose the built-in socket module and the charger. With the 90° angular element no electrification can be selected.
When combining grommets/prepared openings for desk connection panels, some width/depth-dependent configurations or those with a cable tray are not possible. For visualisation of the possible combinations, please refer to the OFML files.

Cable tray set/modesty panel:
A set may consist of cable trays/modesty panels of various lengths. Please find information on the dimensions of the individual cable trays on the page ‚mastermind Accessories'.

Surfaces:
Information on the surface finishes can be found in the surface matrix on the ‚Surfaces' page.

Shaped edges			
Edge with chamfer, lacquered clear	■	6044	
Straight edge, black	□	6043	
Edge with chamfer, black	□	6045	
Lower edge rounded, black	□	6046	
Bull-nose edge, black	□	6047	

Grommet			
Round grommet with square cover (Ø 70 mm), neutral white, white aluminium, black {134,232,24}, surcharge per position	□	11	37,–
Cable grommet large (250 x 90 mm), neutral white, white aluminium, black {134,232,24}, surcharge per position	□	13	148,–
Cable grommet large (250 x 90 mm), chrome-plated {236}, surcharge per position	□	13-236	381,–
Round grommet with brushes, chrome-plated {236}, surcharge per position	□	14	93,–
Grommet turn (2 x 250 mm x 90 mm) with split opening for access from both user sides; neutral white, white aluminium, black {134,232,24}, surcharge per position	□	15	198,–
E-Box Teamtable	□	18	530,–

Position of the table top cut-out			
Towards the outside	□	6123	

Electrification:
You can see the positioning of the electrification on the table top on the page ‚Positions for electrification'. From the "power & data" price list you can choose the built-in socket module and the charger. With the 90° angular element no electrification can be selected.
When combining grommets/prepared openings for desk connection panels, some width/depth-dependent configurations or those with a cable tray are not possible. For visualisation of the possible combinations, please refer to the OFML files.

Cable tray set/modesty panel:
A set may consist of cable trays/modesty panels of various lengths. Please find information on the dimensions of the individual cable trays on the page ‚mastermind Accessories'.

Surfaces:
The following colours are excluded from product offer: maple natural (H11), heartwood maple natural (H12)
Information on the surface finishes can be found in the surface matrix on the ‚Surfaces' page.

Sedus mastermind specification

▶ Programme overview

Frame system	– Easy-to-assemble frame consisting of support beams, connecting knot elements, conical table legs made of steel tube or wood – Height adjustment modules made of plastic, adjustment range approx. 20 mm – Table height 730 mm
Surfaces	– Frame elements: support beams and knots silver anodised. Knots with anti-fingerprint coating. – Table legs: optionally chrome-plated, powder coated black, white aluminium, clear white or beech light natural and oak natural. – 25 mm three-layer chipboard for all models with product code mm-3***: – 1. Melamine resin coating in a single colour or various decorative wood effects (top surface compliant with EN 14322). The minimum light fastness is 6 on the wool scale. Substrate compliant with EN 312-2003. – 2. High-quality crown cut veneer surface, 3 mm veneer edge on all sides. Surface in a high quality, durable, two-component water-based polyurethane lacquer. – 3. Linoleum with real wood in hickory natural (Q10), optionally other veneer edges according to the Sedus veneer range – 4. HPL surface soft touch: The matt soft touch surface is a laminate based on hardenable resins. The top layer of paper is coated in a separate manufacturing process and then electron beam hardened. The result is a velvety, warm surface with anti-fingerprint properties, characterised by its high resistance to abrasion, impact and scratches. – 25 mm MDF panels with shaped edges for all models with product code mm-6***: – 1. High-quality crown cut veneer surface, 3 mm veneer edge on all sides. Surface in a high quality, durable, two-component water-based polyurethane lacquer. – 2. Linoleum with real wood in hickory natural (Q10), optionally other veneer edges according to the Sedus veneer range. The mould edges with codes 6043, 6045, 6046 and 6047 are black – 3. Five different types of shaped edges, lacquered multiple times black or clear. – With the exception of the melamine finish in pure white and graphite black, the HPL finish white and black, the real wood veneers ash white, ash black, wenge varnished oak and dark walnut, the gloss and reflection levels of the surfaces equate to DIN Special Report 147 – E1 quality wood materials – Veneer is a natural product. The colour of the veneer is determined by the type and structure of the wood, and may vary. All woods change colour over time because of the effects of light. As such, the veneer may be markedly different from the sample at the time of delivery. Natural differences are not a cause for complaint, but in fact confirm that the material is genuine.
Veneer grain/design grain	– Single tables: design runs lengthwise, veneer grain runs across – Note for boat-shaped tables: in size 3850 x 1050/1250 mm design grain runs horizontally in melamine likewood, for size 5200 x 1050/1300 mm, melamine likewood only on request – Linear modules: design runs lengthwise, veneer grain runs across – Angular elements: design runs diagonally, veneer grain runs to mitre joint
Desk adapter	– Modesty panels, in felt look, mottled grey. Mounted on the support beams or the cable tray holders with clips. Suitable for starting, extension and end elements and for the 30° angular element.
Electrification	– Cable tray sets suitable for single tables and modular elements. With modules cable tray sets run over the entire table length. Single cable trays in four different lengths for retrofitting. Can be mounted on support beams or centred under the table top. Cable clips and strain relief included in delivery. – Vertical cable management made of flexible black knitted fabric. Mounting in the cable tray also possible. – A chimney for vertical routing of cables that can be mounted anywhere under the table top, in felt look, mottled grey. Cables remain accessible even in an assembled state due to a zipper. – Single cable holder (set of 5) with velcro flap for management of individual cables along the support beams – Integrated electrification: preparation to accommodate the built-in socket modules and the chargers. Selection of cut-outs and illustration of possible installation positions on the page ‚Positions for electrification'. Built-in socket modules and chargers can be ordered from the “power & data” price list. – mastermind power supply: electrical connection unit for power access underneath the front edge of the table. Is attached to the frame support beam without tools. Can be removed at any time. Optionally equipped with two power connections or power connection and USB charger. Equipped with a 1.5 m long flexible spiral cable that can be connected to an extension cable in the cable tray. Can be ordered from the “power & data” price list under pd-002/8906 or pd-002/8907.

Sedus mastermind specification

Standards / Certificates	– GS label by TÜV Rheinland LGA Products GmbH / DIN EN 527 / DIN 16555 – Tested for harmful substances by TÜV Rheinland LGA Products GmbH – GREENGUARD certified – All available certificates can be found at: https://www.sedus.com/en/products/tables/mastermind
Design awards	– iF DESIGN AWARD 2012, Discipline Product – Red Dot Award 2012
Warranty	– 5 years (see guarantee terms)

mastermind flow

mastermind flow sets the stage for a constructive meeting culture. The polygonal shape of the tables breaks up conventional seating arrangements and allows collaboration on a level playing field.

Sedus mastermind flow specification

▶ Modular system

Frame system
- Easy-to-assemble frame consisting of support beams, connecting knot elements, conical table legs made of steel tube or wood
- Height adjustment modules made of plastic, adjustment range approx. 20 mm
- Table height 730 mm

Surfaces
- Frame elements: support beams and knots silver anodised. Knots with anti-fingerprint coating.
- Table legs: optionally chrome-plated, powder coated black, white aluminium, white or natural beech and natural oak.
- 25 mm three-layer chipboard in:
- 1. Melamine resin coating in a single colour (top surface compliant with EN 14322). The minimum light fastness is 6 on the wool scale, substrate compliant with EN 312-2003.
- 2. High-quality crown cut veneer surface, 3 mm veneer edge on all sides. Surface in a high quality, durable, two-component water-based polyurethane lacquer.
- 3. Linoleum with real wood in hickory natural (Q10), optionally other veneer edges according to the Sedus veneer range
- With the exception of the melamine finish in pure white and graphite black, the real wood veneers ash white, ash black, wenge varnished oak and dark walnut, the gloss and reflection levels of the surfaces equate to DIN Special Report 147
- E1 quality wood materials
- Veneer is a natural product. The colour of the veneer is determined by the type and structure of the wood, and may vary. All woods change colour over time because of the effects of light. As such, the veneer may be markedly different from the sample at the time of delivery. Natural differences are not a cause for complaint, but in fact confirm that the material is genuine.

Veneer grain/design grain
- Veneer grain runs across

Electrification
- Cable tray folds down on both sides. Fastening element centred below each starting, extension and end element. Including single cable holder and strain relief.
- Vertical cable management (mm-0000/8013) made of flexible black knitted fabric. Mounting in the cable tray also possible.
- A chimney (mm-0000/8016) for vertical routing of cables that can be mounted anywhere under the table top, in felt look, mottled grey. Cables remain accessible even in an assembled state due to a zipper.
- Single cable holder (mm-0000/8019) with velcro flap for management of individual cables along the support beams (set of 5)
- Various grommets
- Integrated electrification: preparation to accommodate the built-in socket modules and the chargers, can be ordered from the “power & data” price list.
- mastermind power supply: electrical connection unit for power access underneath the front edge of the table. Is attached to the frame support beam without tools. Can be removed at any time. Optionally equipped with two power connections or power connection and USB charger. Equipped with a 1.5 m long flexible spiral cable that can be connected to an extension cable in the cable tray. Can be ordered from the “power & data” price list under pd-002/8906 or pd-002/8907.

Standards / Certificates
- Tested for harmful substances by TÜV Rheinland LGA Products GmbH
- GREENGUARD certified
- All available certificates can be found at: https://www.sedus.com/en/products/tables/mastermind

Warranty
- 5 years (see guarantee terms)

▶ High desk

Frame system
- Easy-to-assemble frame consisting of support beams, connecting knot elements, conical table legs made of steel tube or wood
- All-round foot rail made of round tube, chromed, firmly screwed to the table legs
- Height adjustment modules made of plastic, adjustment range approx. 20 mm
- Table height 1050 mm
- Rail height 235 mm

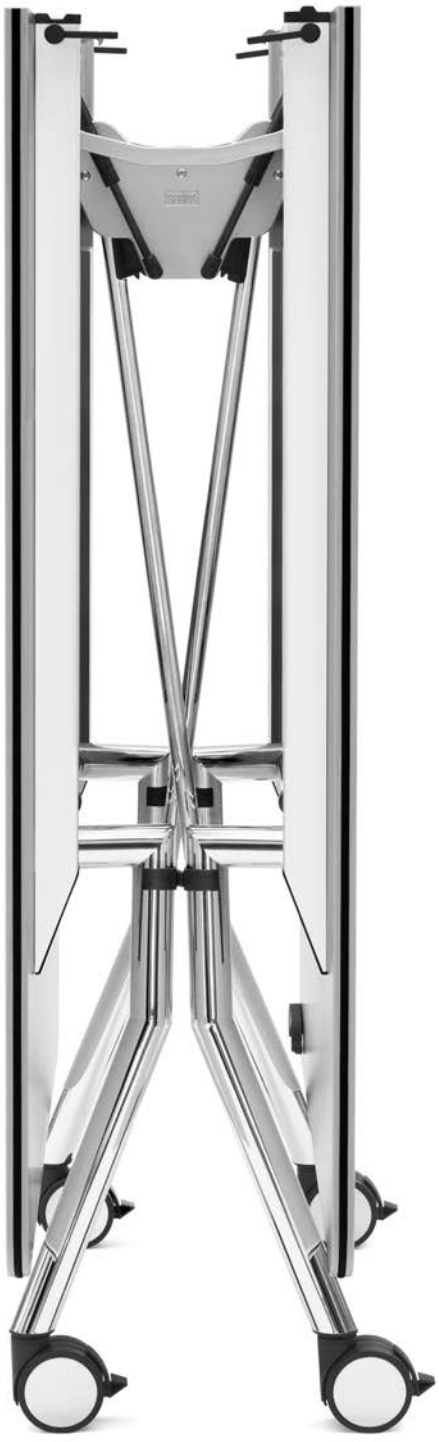
mastermind fold

sedus

A representative conference table that seats up to eight people and takes up little space when it is no longer needed. Thanks to the sophisticated folding technology even one person can set it up or put it away easily.

Conference table rectangle
from 4.413,–

Conference table boat
shape from 4.589,–



Design: Michael Kläsener (Sedus Design Team)

Sedus mastermind fold specification

▶ Conference table foldable

Frame system

- The frame system allows intuitive and smooth folding of the table
- Gearwheel mechanism for synchronous guidance of the tops when folding the table
- Mechanism is gas spring assisted for highly efficient transmission of power
- Locking mechanism secures the table in the unfolded state
- Frame legs optionally in white aluminium, clear white or chrome
- Mechanism housing white aluminium
- Table height 730 mm
- Castors 100 mm diameter, lockable, with polished side covers

Surfaces

- 25 mm three-layer chipboard in:
- 1. Melamine resin coating in a single colour or various decorative wood effects (top surface compliant with EN 14322). The minimum light fastness is 6 on the wool scale. Substrate compliant with EN 312-2003.
- 2. High-quality crown cut veneer surface, 3 mm veneer edge on all sides. Surface in a high quality, durable, two-component water-based polyurethane lacquer.
- 3. Linoleum with real wood in hickory natural (Q10), optionally other veneer edges according to the Sedus veneer range
- 4. HPL surface soft touch: The matt soft touch surface is a laminate based on hardenable resins. The top layer of paper is coated in a separate manufacturing process and then electron beam hardened. The result is a velvety, warm surface with anti-fingerprint properties, characterised by its high resistance to abrasion, impact and scratches.
- With the exception of the melamine finish in pure white and graphite black, the HPL finish white and black, the real wood veneers ash white, ash black, wenge varnished oak and dark walnut, the gloss and reflection levels of the surfaces equate to DIN Special Report 147
- E1 quality wood materials
- Veneer is a natural product. The colour of the veneer is determined by the type and structure of the wood, and may vary. All woods change colour over time because of the effects of light. As such, the veneer may be markedly different from the sample at the time of delivery. Natural differences are not a cause for complaint, but in fact confirm that the material is genuine.
- Integrated rubber edges made of black elastomer, optionally without rubber edge
- Rounded corners (80 mm), optionally without rounded corners

Sedus mastermind high desk specification

▶ High desk

Frame system

- Easy-to-assemble frame consisting of support beams, connecting knot elements, conical table legs made of steel tube or wood
- All-round foot rail made of round tube, firmly screwed to the table legs
- Height adjustment modules made of plastic, adjustment range approx. 20 mm
- Table height 1050 mm
- Rail height 235 mm

Surfaces

- Frame elements: support beams and knots silver anodised. Knots with anti-fingerprint coating.
- Foot rail: made of chrome-plated steel tube. Knot elements silver anodised.
- Table legs: optionally chrome-plated, powder coated black, white aluminium, clear white or beech light natural and oak natural
- 25 mm three-layer chipboard in:
- 1. Melamine resin coating in a single colour or various decorative wood effects (top surface compliant with EN 14322). The minimum light fastness is 6 on the wool scale. Substrate compliant with EN 312-2003.
- 2. High-quality crown cut veneer surface, 3 mm veneer edge on all sides. Surface in a high quality, durable, two-component water-based polyurethane lacquer.
- 3. Linoleum with real wood in hickory natural (Q10), optionally other veneer edges according to the Sedus veneer range
- 4. HPL surface soft touch: The matt soft touch surface is a laminate based on hardenable resins. The top layer of paper is coated in a separate manufacturing process and then electron beam hardened. The result is a velvety, warm surface with anti-fingerprint properties, characterised by its high resistance to abrasion, impact and scratches.
- 25 mm MDF panels with Shaped edges:
- 1. High-quality crown cut veneer surface, 3 mm veneer edge on all sides. Surface in a high quality, durable, two-component water-based polyurethane lacquer.
- 2. Linoleum with real wood in hickory natural (Q10), optionally other veneer edges according to the Sedus veneer range; shaped edges black or clear
- 3. Five different types of shaped edges, lacquered multiple times black or clear.
- With the exception of the melamine finish in pure white and graphite black, the HPL finish white and black, the real wood veneers ash white, ash black, wenge varnished oak and dark walnut, the gloss and reflection levels of the surfaces equate to DIN Special Report 147
- E1 quality wood materials
- Veneer is a natural product. The colour of the veneer is determined by the type and structure of the wood, and may vary. All woods change colour over time because of the effects of light. As such, the veneer may be markedly different from the sample at the time of delivery. Natural differences are not a cause for complaint, but in fact confirm that the material is genuine.

Veneer grain/design grain

- Design runs lengthwise, veneer grain runs across

Desk adapter

- Multifunction groove: optional from table top depth 1200 mm, for attachment of function bridges, screen elements, monitor holders

Electrification

- Cable tray: folds down on both sides. Attaches under centre of the table top. Including single cable holder and strain relief.
- Vertical cable management: is hooked into the cable tray without tools
- Various grommets
- Integrated electrification: preparation to accommodate the built-in socket modules and the chargers, can be ordered from the “power & data” price list.
- mastermind power supply: electrical connection unit for power access underneath the front edge of the table. Is attached to the frame support beam without tools. Can be removed at any time. Optionally equipped with two power connections or power connection and USB charger. Equipped with a 1.5 m long flexible spiral cable that can be connected to an extension cable in the mastermind high desk cable tray. Can be ordered from the “power & data” price list under pd-002/8906 or pd-002/8907.

Standards / Certificates

- GS label by TÜV Rheinland LGA Products GmbH / DIN EN 527
- Tested for harmful substances by TÜV Rheinland LGA Products GmbH
- GREENGUARD certified
- All available certificates can be found at: https://www.sedus.com/en/products/tables/mastermind-high-desk

Warranty

- 5 years (see guarantee terms)

Information on measuring methodology, glides, castors, spare parts

Measuring methodology

Measurement methods for all swivel chairs, that need to comply with EN 1335-1:2001 (product launch July 2020 and older).
A suitably shaped weight of 64 kg is placed on the seat cushion.
The seat height is the vertical distance between the underside of the weight in the ischium area and the floor.

Measurement methods for all chairs that comply with the new EN 1335-1:2020 (from August 2020 onwards).
The chair measuring device (CMD = chair measuring device according to ISO 24496) with a total mass of 64 kg is positioned on the chair. For horizontal seat adjustment, the seat height results from the vertical distance between the front of the loaded seat and the floor. The seat depth is the horizontal distance between the front of the seat and the pelvis support.

Measuring methodology for all visitor chairs complying with EN 13761.
A suitably shaped weight totalling 64 kg is placed on the seat cushion.
The seat height is the vertical distance between the underside of the weight in the ischium area and the floor.

The difference in **seat height** between EN 1335-1:2001 and EN 1335-1:2020 regards solelythe measuring point.
EN1335-1:2001: Measurement at the pivot point of the chair
EN1335-1:2020: Measurement at the front of the seat

The difference in **seat depth** between EN 1335-1:2001 and EN 1335-1:2020 regards the reference point on the backrest
EN1335-1:2001: Measurement in the lumbar support point
EN1335-1:2020: Measurement in the pelvis support
(the difference can be between 20–40 mm)

The upholstery thicknesses indicated are around the ischial tuberosities for the seat and around the lumbar support for the backrest.

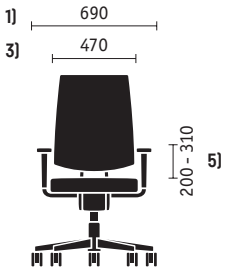
Measuring

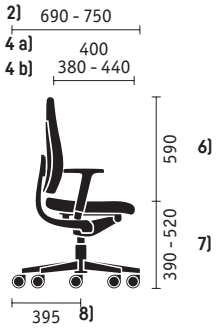
Measurements for swivel chairs, visitor chairs, multi-purpose chairs and designer chairs:
Measurements are given for the base model

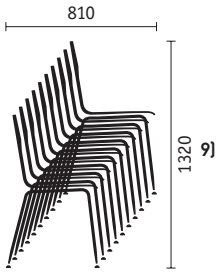
1] Total width incl. armrests/base
2] Total depth
3] Seat width
4 a] Seat depth; Normal seat position
4 b] Seat depth; Sliding seat (min - max)
5] Armrest height from seat: ring armrests / height-adjustable armrests (min - max)
6] Height of backrest from seat
7] Height of seat from floor
8] Base radius incl. castors
9] Stacking height / Stacking depth

Total height: this is given for the seat height or the backrest height

e. g. measuring the black dot swivel chair and the stack of meet chair stack







Glides/castors

Glides and castors can be easily and safely exchanged.

Glides:
Stainless steel or plastic glides: Standard version, the plastic surface can be used universally. Especially suitable for soft floors, such as carpet or felt.
Hybrid glides: Optionally selectable depending on the additional equipment. The plastic surface can be used universally.
Felt glides: Optionally selectable depending on the additional equipment. The felt glide surface is especially suitable for sensitive, hard or smooth floors.

Castors:
Hard castors: Standard design, suitable for soft floors, such as carpet or felt.
Soft casters: Optionally selectable depending on additional equipment. Universally applicable, especially suitable for sensitive, hard or smooth floors.

Spare parts

The price of spare parts are model-specific and can be obtained by contacting Sedus: info@sedus.com
