

SE:AIR

Architects everywhere are falling in love with se:air, and it's easy to see why. With its sleek monochrome expression and innovative design, se:air has captured the attention of industry experts, earning it the prestigious Red Dot Design Award last year. Now, Sedus is proud to announce the launch of se:air in stunning new colors, giving you even more options to personalize your workspace.

Key features:

- **Vibrant color palette:** se:air is now available in five captivating colors - white, black, green, blue, and red. Choose the hue that best complements your office aesthetic and adds a touch of personality to your space.
- **Contemporary design:** Featuring a seamless monochrome expression, se:air exudes modern sophistication and elegance, making it a standout addition to any workspace.
- **Customizable comfort:** With its gas lift system and ergonomic design, se:air ensures optimal comfort and support throughout your workday. The seat and back are upholstered with membrane in your choice of color, while the armrests offer a soft touch surface for added comfort.
- **Practicality meets style:** se:air is equipped with a 5-star plastic base and soft wheels, providing stability and mobility for seamless movement around your office.

Why Choose se:air?

If you're searching for an office chair that stands out from the crowd, se:air is the perfect choice. With its vibrant colors and monochrome look, Se:air adds a dash of excitement to your workspace while still delivering the comfort and functionality you need for long hours at the desk.
